Comment				There is no known alternative to methanol as the most significant portion of windshield washer fluid.		Zinc is required in steel for anti-corrosion properties.

### Certification

As of June 15, 2011, I certify that I have read the reports on the toxic substance reduction plans for ethylbenzene, toluene, xylene, methanol, hydrochloric acid and zinc and am familiar with their contents and to my knowledge the information contained in the reports is factually accurate and the reports comply with the Toxics Reduction Act, 2009 and Ontario Regulation 455/09 (General) made under the Act.
