Enough seats for your passengers. And space for their lives.

You know it's not about making the most out of a journey. It's about getting the most when you're on the way. Journeyers, meet the all-new 2016 Pilot. It stands as Honda's most capable Pilot yet. With the addition of the Earth Dreams™ engine, the Pilot is designed to thirst for adventure, not fuel. It's roomy interior seats up to eight passengers (seven on the Touring model), while its cargo capacity makes their packing list just about limitless. Plus, with features like the available Honda Satellite-Linked Navigation System™^{1,2} and available Honda Rear Entertainment System with Blu-ray™ capability, they'll stay happy all along the way. And this year, we've added more confidence to every trip with the available Honda Sensing™ safety and driver-assistive technologies. Plus, inside its modern, sleek exterior, you won't just catch attention – you'll steal the show. And while its refined interior surrounds you in comfort, it keeps you and your passengers rolling in style. The 2016 Pilot is confident, refined and ready for anything. Are you?

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.
2. Map database covers major metropolitan areas in Canada and the 48 contiguous U.S. states.

Looks great in your driveway. Even though it's hardly ever there.

Whether you're loading up at the local farmer's market or you're headed to your favourite weekend brunch spot, you'll always take the scenic route. And with the 2016 Pilot, you'll bring the scene with you. From its sleek, beveled body to its muscular hood with sculpted lines to its stylish available projector-beam LED headlights with auto high beam technology to its signature LED taillights, the Pilot always leaves a bold impression. And with its available 20" aluminum-alloy wheels, it can't help but turn heads. Plus, it makes rough conditions even easier on the eyes with available rain-sensing windshield wipers and front wiper de-icer, which heats up the bottom of the Pilot's windshield to help keep its wipers clear of slush and ice. But no matter what the forecast calls for, the available power tailgate makes getting at your cargo and hitting the road a breeze. So wherever you're headed, the Pilot makes looking confident look good.

- Available power-folding heated side mirrors
- Available roof rails
- Available LED daytime running lights
- Available fog lights

Offer up any seat. Except this one.

You take pride in hitting the road with the family. And when you've got friends to show around the city, you always give them something stunning to look at. No matter what, the refined interior of the 2016 Pilot speaks to every ride. It surrounds you and your passengers in sophistication thanks to the little touches like the available LED interior ambient lighting and soft-touch dash and door materials, while the available panoramic moonroof brightens the cabin. Making the Pilot easy on the eyes and even easier to sit in are the available perforated leather-trimmed seating surfaces and the available leather-wrapped steering wheel. And even though you've got places to be, you and your passengers will take the long way, thanks to features like heated front seats, available heated steering wheel and available heated second-row outboard seats (captain's chairs on the Touring model), while the available ventilated front seats keep you cool on summer days. And keep your keys in your pocket or purse, thanks to the proximity key entry system with pushbutton start. Plus, the remote engine starter not only starts the vehicle but also helps to manage the cabin temperature before you get inside. With comfort and refinement, the Pilot is designed to make every ride worth savouring.

- Available panoramic moonroof
- Available memory-linked side mirrors and driver's seat position
- Driver's seat with available 10-way power adjustment including power lumbar support
- Tri-zone automatic climate control

Pack it right up, then fill it with memories.

You've got campsites to conquer, trails to blaze, and with the 2016 Pilot, you and your passengers have plenty of room to roam free. When you, your family and your friends are ready, just load up, add some adventure, and you'll all ride with enough room for up to eight passengers (seven on the Touring model with second-row captain's chairs) and have comfort to spare. Passengers can enjoy easy access while they get in and out of the third-row, using the available one-touch walk-in. And when you need to load gear, groceries or goodies, the Pilot is up to the task with the help of its easy fold-down 60/40 split-folding rear seats – in both the second and third row. Whether you're reaching for your morning coffee, or you just want to get at your wallet or purse, the centre console with sliding smartphone tray comes with enough storage for your everyday essentials. And for those times when the seats are loaded and you want to bring enough snacks for the trip, there's plenty of space in the rear cargo to easily fit a 77.6-litre (or 82-quart) cooler. Plus, the reversible cargo lid can be flipped between the carpet and plastic side to handle even your messiest cargo or wettest dog. And with its 2-position cargo floor, the lid can be lowered for extra space or raised to keep your belongings concealed. For those adventures with a lot going on, the Pilot has a lot to work with.

**8 passenger seating
(7 passenger seating
on Touring model)**

**Available one-touch walk-in
second-row seats**

**60/40 split-folding second-
row and third-row seats**

**Reversible cargo lid with
hidden cargo mode**

**Centre console with
sliding smartphone tray**

Get lost in the moment, without getting lost.

A road trip is the perfect way to unwind, sightsee, and get lost in the moment. And the Pilot is a multitasker loaded with sophisticated tech features designed to get you on your way, without losing your way.

Honda Satellite-Linked Navigation System.TM

When you hit the road, you don't need a plan. But sometimes it's good to have a backup plan. And thanks to the available Honda Satellite-Linked Navigation System^{TM1,3} with bilingual Voice Recognition, there's virtually no route you can't plan for. An all-new system to the Pilot that helps you drive with greater ease as it guides you with improved graphics, as well as 3D landmark displays, highway signs, speed limit display, arrival time and lane guidance.

Honda LaneWatchTM blind spot display.

Keep more of your right side in sight with the available Honda LaneWatchTM blind spot display¹. Exclusive⁴ to Honda, it sends a live video feed from a camera mounted under your passenger-side mirror to the 8" Display Audio System¹ screen, revealing nearly four times more visibility than the mirror alone.

Multi-angle rearview camera with dynamic guidelines.

Get a better view of what's behind you with the multi-angle rearview camera¹ with dynamic guidelines, which provides a live video feed straight to the 8" Display Audio System¹ screen. It has three different angles including wide, normal and top-down, for added perspective and easier reversing.

Honda Rear Entertainment System with 9" display.

Keep the gang entertained no matter where your adventure is headed with the available DVD or Blu-rayTM Honda Rear Entertainment System with 9" display with integrated remote control and wireless headsets. And to make the going even more fun, the available HDMI[®] input² allows passengers to bring aboard some extra entertainment.

Get connected. Stay charged.

No matter where you're headed, stay connected with the available five USB connectors² (four have quick charge capability). And with the available 110-volt power outlet, you can be sure to stay charged and ready for every trip.

Blind Spot Information (BSI) system¹ with Rear Cross Traffic Monitor.¹

The available Blind Spot Information (BSI) system with Rear Cross Traffic Monitor uses radar that is engineered to notify you with the use of indicator lights of vehicles entering either blind spot during lane changes or with an alert on the 8" Display Audio System¹ screen when a vehicle is detected crossing your path on either side as you are reversing.

Available Honda Satellite-Linked Navigation SystemTM

Available Honda LaneWatchTM blind spot display

Multi-angle rearview camera with dynamic guidelines

Available Blu-rayTM Honda Rear Entertainment System with 9" display

USB connectors

Available 540-watt audio system with 10 speakers

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.
2. Only compatible with certain devices and operating systems. Cellular data and/or voice charges may apply, including roaming charges and/or other amounts charged by your wireless carrier.
3. Map database covers major metropolitan areas in Canada and the 48 contiguous U.S. states.
4. Based on information available to Honda Canada Inc. as of July 8, 2015.

Come rain or shine. Or mud. Or snow. Or sand.

Whether it's the cozy weekend cottage getaway or a rugged camping escape, you're ready to head on any adventure. And thanks to the Earth Dreams™ technology engine, new to this year's Pilot and designed to enhance fuel efficiency without sacrificing performance, the 2016 Pilot will have no problem getting you there. And to help every litre go further, the Variable Cylinder Management® (VCM®) system is designed to automatically switch between 6 and 3 cylinders, depending on the driving conditions. Plus, the 6-speed and available 9-speed automatic transmissions help enhance performance, while the available steering wheel-mounted paddle shifters help boost fun. The Pilot's available new Intelligent Variable Torque Management (i-VTM4™) AWD system is designed to increase responsiveness and handling for a confident ride. And on snow, mud or sand, the Intelligent Traction Management system (AWD models only) allows the driver to select the operating mode that best suits the driving conditions by simply pushing a button. The Pilot is designed to be even more efficient with available idle-stop, which can shut the engine off when the vehicle is stopped, and instantly restart the engine when the brake pedal is released. Altogether, the Pilot boasts fuel economy ratings as low as 12.4/8.8/10.8L/100km¹ (city/highway/combined; 2WD). When you're ready to ride, the Pilot has enough stop and go to handle the ups, downs and turns that virtually any adventure can offer.

1. Estimated fuel economy based on Government of Canada's 5-cycle testing method. Your actual fuel consumption will vary based on driving habits and other factors – use for comparison only. For more information on 5-cycle testing, visit <http://vehicles.nrcan.gc.ca>
 2. Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures.
 3. Accessory towing package required. Packages are available at an additional cost as a dealer-installed item. Expected availability of 2268 kg towing package for Touring model: Fall 2015. See your Owner's Manual for proper towing operation.

3.5-litre, 24-valve, Direct Injection, SOHC, i-VTEC® V6 engine with Variable Cylinder Management® (VCM®), 280 horsepower² and 262 lb.-ft of torque²

6-speed or available 9-speed automatic transmission

Available Intelligent Variable Torque Management AWD system

Available Intelligent Traction Management system

Available 1,588 kg or available 2,268 kg towing capacity³

Available electronic gear selector

Shown with accessorized towing package.³

See the road's most important angles.

For the first time, the Pilot comes with available Honda Sensing™ technologies. These safety and driver-assistive technologies are designed to help improve the driver's situational awareness, and, in some cases, intervene to help avoid a collision or lessen its severity.

HONDA SENSING™ TECHNOLOGIES

Collision Mitigation Braking System™ (CMBS®).

To help reduce the likelihood or severity of a frontal impact, the available CMBS® is engineered to apply the brakes if you don't slow down when it senses you're at risk of a collision. If it still senses an imminent collision, CMBS® is designed to brake firmly.

Road Departure Mitigation (RDM) system.

With camera technology, the available Road Departure Mitigation system¹ is designed to help steer and even apply the brakes when necessary to help keep the vehicle from leaving the road.

Lane Keeping Assist System (LKAS).

The available LKAS¹ is engineered to gently correct your steering when you begin to leave a detected lane without signaling, applying torque progressively to the steering to help guide you back to the centre of the lane.

Lane Departure Warning (LDW) system.

Using a camera behind the rearview mirror, the available Lane Departure Warning system¹ is designed to monitor vehicle lane position and alert you when your vehicle drifts into a new lane when you haven't signaled.

Adaptive Cruise Control (ACC).¹

This available radar-based system is designed to keep a set speed and set interval from a vehicle detected directly in front of you.

Forward Collision Warning (FCW) system.

The available Forward Collision Warning system¹ uses an onboard radar and camera designed to detect the presence of vehicles in front of you and issue alerts if you're approaching with too much speed.

Available Collision Mitigation Braking System™

Available Road Departure Mitigation system

Available Lane Keeping Assist System

Available Lane Departure Warning system

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.

Solid on safety.

At Honda, we strive to provide a high level of standard safety features to help ensure the safety of occupants, other drivers and even pedestrians. With this added peace of mind, our drivers have the confidence to enjoy every road to the fullest.

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.
2. For optimal tire wear and performance, the pressure should be checked regularly with a tire gauge. Do not rely solely on the monitor system.
3. Only compatible with certain devices and operating systems. Cellular data and/or voice charges may apply, including roaming charges and/or other amounts charged by your wireless carrier.
4. Operation requires wireless mobile phone to be paired with the vehicle. Operation is dependent upon cellular data and/or voice connection availability and GPS satellite signal reception.

ACTIVE SAFETY

Controlled Braking

To assist with safe stopping, the 4-wheel Anti-lock Braking System¹ (ABS) is designed to help you maintain control under hard braking conditions, while Electronic Brake-force Distribution (EBD) helps to optimize braking power based on weight distribution inside the vehicle. In addition, Brake Assist is engineered to help improve braking performance by applying full brake pressure when a panic stop is detected.

Vehicle Stability Assist (VSA[®]) with Traction Control

Vehicle Stability Assist¹ with Traction Control is designed to sense and help correct oversteer and understeer scenarios to enhance handling and cornering stability, while Traction Control is designed to minimize wheel spin when accelerating on loose or slippery surfaces, helping to inspire greater driver confidence.

Hill Start Assist¹

When you take your foot off the brake, this feature is engineered to temporarily maintain brake pressure to help prevent your Pilot from starting to roll backwards when stopped on an incline.

Tire Pressure Monitoring System (TPMS)

To promote enhanced safety and fuel efficiency, the Tire Pressure Monitoring System² continually checks the air pressure in each tire. If pressure drops in any one tire, the driver receives a dashboard alert.

PASSIVE SAFETY

Advanced Compatibility Engineering™ (ACE™) body structure

The highly innovative, next generation Advanced Compatibility Engineering™ (ACE™) body structure is engineered to help disperse frontal impact energy to enhance occupant protection, while more effectively controlling it in severe collisions, to help prevent intrusion into the passenger cabin.

HondaLink™ Assist Automatic Emergency Response System

The HondaLink Assist Automatic Emergency Response System^{1,3,4} helps you get the help you need when you need it most. If the airbags deploy, your Display Audio System¹ is engineered to automatically attempt to put you on a call with an operator who will forward your location to first responders if needed. It works with any compatible Bluetooth[®]-paired phone as long as it has reception, does not require a subscription and gives you peace of mind while you're on the road.

Solid frame structure

Like all Honda trucks, the Pilot is built with a rigid unit-body frame for added strength, stability and vehicle handling.

Child safety

The exceptional safety features in the Pilot also apply to your most precious cargo. Four built-in, ready to use Lower Anchors and Tethers for Children (LATCH) give you a simple and convenient method to install compatible child safety seats without using the vehicle's seat belt system. The Pilot also features childproof rear door locks.

Pedestrian safety

Innovative pedestrian safety features include an energy-absorbing hood and front fenders and deformable wiper pivots.

Six standard airbags

The cabin of the Pilot contains six standard airbags. It features dual-stage, multiple-threshold front airbags as well as three-row side curtain airbags with rollover sensor system, which are designed to deploy the side curtain airbags in the event of a rollover. Plus, it has Smartvent™ side airbags, which are designed to deploy safely in a manner that mitigates the risk of injury to out-of-position or smaller occupants.

Seat belt safety

The Pilot helps prepare you for the unexpected with 3-point height-adjustable front seat belts with automatic tensioning system and 3-point rear seat belts in the second and third rows.

Cargo cover

Cargo tray, folding

Running boards, chrome

Roof rack, bike attachment

Door sill trim, illuminated

All-season floor mats

20" alloy wheel, black

Towing package

Door mirror cover, chrome

The Power of Dreams, in all their forms.

At Honda, we're committed to being a leader in innovative thinking. It's part of everything we do, from the design of our vehicles to the way we work. We have a proud tradition of turning ideas into products and initiatives that help move and improve people's lives in every conceivable way. Today, our innovation manifests itself in many forms: our revolutionary Earth Dreams™ technology, the race-inspired performance of our motorcycles and automobiles, the world's most advanced humanoid robot, ASIMO, HondaJet, the fastest, highest flying and most fuel-efficient aircraft in its class, and the first full line of fuel-efficient, low-emission, 4-stroke outboard motors. We continually strive to do things others think can't be done, because true innovation comes from daring to dream.

Beyond dreaming up new products, Honda believes we have a responsibility to do everything we can to help preserve our planet. This belief is why we make significant efforts to help ensure preservation of the environment in all of our company's activities. It's why our head office in Markham, Ontario was designed and built to be LEED® (Leadership in Energy and Environmental Design) Gold Certified. It's why our Alliston, Ontario plant is ISO 14001 certified. And it's why Honda, along with our associates and families, has helped plant more than 100,000 trees in Canada over the last 9 years.

As we move forward, we will continue to honour our responsibility and tradition of turning innovative ideas into products that help make our world a better place. That's what we do. That's The Power of Dreams.

We're Here. At Honda, assistance and support are always available. The team of trained technicians at your Honda dealership will help keep your vehicle in terrific shape. If you need more information or assistance relating to your warranty, call us at 1-888-9-HONDA-9. For all of the latest Honda information, including product specifications, pricing, photos and more, visit honda.ca. It has everything you need to "design" your Honda and personalize it with items from a list of quality accessories.

We're Ready to Help. When you purchase a new Honda, you automatically receive Honda Plus Roadside Assistance. This service is available to you, or any authorized driver, 24 hours a day, 7 days a week, anywhere in Canada or the continental United States. Coverage is for 3 years over an unlimited distance and includes a 24-hour toll-free Honda Plus Roadside Assistance number, mechanical breakdown towing, emergency roadside service and many other helpful features. Ask your dealer for more information.

Honda Plus Extended Warranty. Experience added protection with Honda Plus coverage that is behind you for the road ahead. With available coverage options of up to 8 years/200,000 km, you can choose the one that best suits your needs. With a plan this wide-ranging, the only thing that's uncertain is where it will take you.

Honda Financial Services. Whether you buy or lease a Honda, Honda Financial Services can assist you with the process. Ask your dealer which lease or purchase plan best suits your needs.

New Honda Vehicle Warranty. The Honda warranty protection makes Power Train components a minor concern with the Honda 5-year/100,000-km No Nonsense Warranty. In addition to the Honda 5-year/100,000-km No Nonsense Warranty, you and your new Honda are protected by a Honda 3-year/60,000-km Distributor's Warranty as well as an additional series of warranties for such items as emission controls, body corrosion and more.

Genuine Honda Accessories give you the opportunity to fine-tune your new Honda just how you like it. Whether you want to turn up the style, the versatility or the exclusivity, every accessory is designed and built to adhere to the strictest Honda standards. See your dealer for full details.

Genuine Honda Replacement Parts are made to the same exacting standards as original Honda components and are guaranteed by the Genuine Honda Parts Warranty. Using Genuine Honda Parts will help to maintain the quality, reliability and performance of your vehicle.

Always use seat belts and appropriate child seats. Children 12 and under are safest when properly restrained in a rear seat. Honda reminds you to properly secure all items stored in the cargo area.

Some of the technologies described in this brochure come with limitations. See owner's manual for complete details. - Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures.
- Accessory towing package required. Packages are available at an additional cost as a dealer-installed item. Expected availability of 2268 kg towing package for Touring model: Fall 2015. See your Owner's Manual for proper towing operation.
- None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.
- For optimal tire wear and performance, the pressure should be checked regularly with a tire gauge. Do not rely solely on the monitor system.
- Only compatible with certain devices and operating systems. Cellular data and/or voice charges may apply, including roaming charges and/or other amounts charged by your wireless carrier.
- Operation requires wireless mobile phone to be paired with the vehicle. Operation is dependent upon cellular data and/or voice connection availability and GPS satellite signal reception.
- HomeLink® can be programmed with codes of up to three remote-control devices (e.g., garage-door opener, home security system, etc.). Additional control devices not provided by Honda may be required.
- Map database covers major metropolitan areas in Canada and the 48 contiguous U.S. states.
- Coverage varies by market.
- Only available in certain areas. Includes a no-charge trial of three months.
- Estimated fuel economy based on Government of Canada's 5-cycle testing method. Your actual fuel consumption will vary based on driving habits and other factors – use for comparison only. For more information on 5-cycle testing, visit <http://vehicles.nrcan.gc.ca>.

PILOT LX

- KEY FEATURES:**
- 280 horsepower¹, 3.5-litre, 24-valve, Direct Injection, SOHC, i-VTEC[®] V6 engine
 - Variable Cylinder Management[®] (VCM[®])
 - 6-speed automatic transmission with Grade Logic Control
 - 18" aluminum-alloy wheels
 - Seating capacity: 8
 - Heated front seats
 - Front wiper de-icer
 - Body-coloured heated power side mirrors including expanded view driver's mirror
 - HandsFreeLink™-bilingual Bluetooth[®] wireless mobile phone interface^{2,3} with steering-wheel mounted controls
 - Multi-angle rearview camera² with dynamic guidelines
 - Proximity key entry system with pushbutton start
 - Remote engine starter
 - Display Audio System² with HondaLink™^{2,3}
 - HondaLink™ Assist Automatic Emergency Response System^{2,3,4}
 - 225-watt AM/FM/CD audio system with MP3/Windows Media[®] Audio playback capability and 7 speakers including subwoofer
 - USB device connector² (3)
 - 4-wheel Anti-lock Braking System² (ABS), Brake Assist and Electronic Brake-force Distribution (EBD)
 - Available Intelligent Variable Torque Management (i-VTM4™) AWD system
 - Intelligent Traction Management System (AWD models)
 - Collision Mitigation Braking System™^{2†} (CMBS[®])
 - Forward Collision Warning^{2†} (FCW) system
 - Lane Departure Warning (LDW) system^{2†}
 - Road Departure Mitigation (RDM) system^{2†}
 - Adaptive Cruise Control^{2†} (ACC)
 - Lane Keeping Assist System^{2†} (LKAS)

†AWD Honda Sensing™ model only.

PILOT EX

- ADDS TO OR REPLACES LX FEATURES:**
- Intelligent Variable Torque Management (i-VTM4™) AWD system
 - Intelligent Traction Management System
 - One-touch power moonroof with tilt feature
 - Honda LaneWatch™ blind spot display²
 - Driver's seat with 10-way power adjustment including power lumbar support
 - Fog lights
 - LED daytime running lights
 - Mirror-integrated LED turn signal indicators
 - Roof rails
 - HomeLink[®] remote system⁵
 - Collision Mitigation Braking System™² (CMBS[®])
 - Forward Collision Warning² (FCW) system
 - Road Departure Mitigation (RDM) system²
 - Lane Departure Warning (LDW) system²
 - Adaptive Cruise Control² (ACC)
 - Lane Keeping Assist System² (LKAS)

PILOT EX-L

- ADDS TO OR REPLACES EX FEATURES:**
- Leather-trimmed seating surfaces
 - Power tailgate
 - Heated leather-wrapped steering wheel
 - Heated second-row seats (outboard positions only)
 - One-touch second row seats
 - Auto-dimming rearview mirror
 - Body-coloured front and rear parking sensors
 - SiriusXM™⁶
 - Passenger's seat with 4-way power adjustment
 - Acoustic windshield

PILOT EX-L NAVI

- ADDS TO OR REPLACES EX-L FEATURES:**
- Honda Satellite-Linked Navigation System™^{2,7} and bilingual Voice Recognition

PILOT EX-L RES

- ADDS TO OR REPLACES EX-L FEATURES:**
- DVD Honda Rear Entertainment System with 9-inch display, integrated remote control and wireless headsets with personal surround sound
 - HDMI[®] (High-Definition Multimedia Interface) input jack³
 - Integrated second-row sunshades
 - 110-volt power outlet

PILOT TOURING

- ADDS TO OR REPLACES EX-L RES FEATURES:**
- 9-speed automatic transmission with Grade Logic Control
 - Electronic gear selector
 - Idle-stop
 - Seating capacity: 7 with second-row captain's chairs
 - Panoramic moonroof
 - 20" aluminum-alloy wheels
 - Blu-ray™ Honda Rear Entertainment System with 9-inch display, integrated remote control and wireless headsets with personal surround sound (replaces DVD Honda Rear Entertainment System)
 - Blind Spot Information (BSI) system² (replaces Honda LaneWatch™ blind spot display)
 - Rear Cross Traffic Monitor² system
 - 540-watt AM/FM/CD Premium audio system with MP3/Windows Media[®] Audio playback capability and 10 speakers including subwoofer and 5.1 Surround Sound
 - Display Audio System² with Honda Satellite-Linked Navigation System™^{2,7} and bilingual Voice Recognition
 - Projector-beam LED headlights with auto-on/off
 - Auto high beam
 - Auto-levelling front headlights
 - Ventilated front seats
 - USB device connector² (5)
 - Driver's seat position memory
 - Memory-linked side mirrors with reverse gear tilt-down
 - Rain-sensing windshield wipers
 - Power folding mirrors
 - Ambient lighting
