ACCESSORIES

¹Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures. ²Does not replace the driver's responsibility to exercise due care while driving. ³For optimal tire wear and performance, tire pressure should be checked regularly with a gauge. Do not rely solely on the monitor system. ⁴Forward Collision Warning (FCW) cannot detect all objects ahead and may not detect a given object; accuracy will vary based on weather, speed and other factors. System operation affected by extreme interior heat. FCW does not include a braking function. Driver remains responsible for safely operating vehicle and avoiding collisions. ⁵Only compatible with certain devices. ⁶HomeLink™ can be programmed with codes of up to three remote-control devices (e.g., garage-door opener, home security system, etc.). Additional control devices not provided by Honda may be required. ⁷Map Database of the Honda Satellite-Linked Navigation System covers major metropolitan areas in southern Canada and the 48 contiguous U.S. states. For a list of current detailed coverage areas, refer to the Honda web site, www.honda.ca. ⁸Lane Departure Warning (LDW) only alerts drivers when lane drift is detected without a turn signal in use. LDW may not detect all lane markings or lane departures; accuracy will vary based on weather, speed and road condition. System operation affected by extreme interior heat. Driver remains responsible for safely operating vehicle and avoiding collisions. ⁹Display accuracy will vary based on weather, size of object and speed, and the display may not show all relevant traffic. The display is not a substitute for your own direct visual assessment of traffic conditions before changing lanes. ¹⁰Standard data rates may apply. ¹¹Launch smartphone applications only when the vehicle is safely parked. ¹²Includes a no-charge trial of 3 months, beyond which service fees apply. Available in 10 Canadian provinces and 48 contiguous U.S. states. See terms and conditions at www.siriusxm.ca. ¹³Compatible smartphone required. All Aha platform feeds are audible, not visual in nature. Vehicle does not provide any feeds. ¹⁴Text message function is only compatible with certain devices. Only use this function when conditions allow you to do so safely. ¹⁵Honda FM Traffic traffic-flow data and incident-reporting coverage vary by market. ¹⁶The system is capable of recognizing standard verbal commands in English, French and Spanish. ¹⁷Based on GAC segmentation.
