

HondaLink™ | THE NEXT
GENERATION

QUICK START GUIDE

HondaLink™ The Next Generation is only available on certain Honda models and trims. Ask your dealer or see honda.ca/hondalink for details. iPhone® not included. Screen images may vary.

GET STARTED WITH HondaLink™^{5,11,12,33}

Connect with your Honda like never before. Link your iPhone® 5, 5c, or 5s series, as well as the iPhone® 6 and 6 Plus with HondaLink™ The Next Generation to transform your vehicle into a seamless digital hub loaded with music, podcasts, vehicle services and more – all on a 7-inch touch-screen. You can even get turn-by-turn navigation with the HondaLink Navigation app.

Ready to start using HondaLink? Make sure you have the following:

- **Compatible smartphone***

Compatible phones include iPhone® 5, 5c and 5s series, as well as the iPhone® 6 and 6 Plus. Previous iPhone® models and iPads® are not supported.

- **HondaLink cables (see next page for cable requirements)**

If you don't have the required cables, you can purchase them from your local electronics retailer. Only original Apple Lightning USB and Lightning AV Adapter cables are recommended.

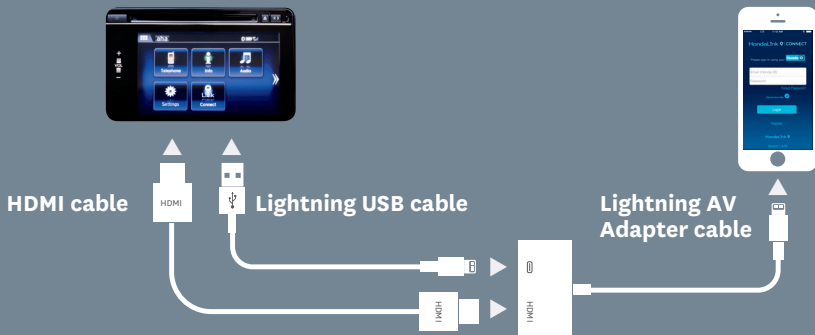

- **HondaLink apps**

Use your compatible smartphone to download the apps from the App Store.

*Phone compatibility as of March 2015. Additional phones may be compatible in the future.

HondaLink CABLE SET-UP

You will need an HDMI® cable, a Lightning USB cable, and a Lightning AV Adapter cable.

SET UP AND CONNECT YOUR COMPATIBLE iPhone

1. Open the App Store on your compatible iPhone and type “HondaLink” into the search box.
2. Download the HondaLink App Launcher,^{5,11,12,33} HondaLink Connect^{5,11,12,33} and HondaLink Aha™^{5,11,12,16,33} apps. The HondaLink Navigation app^{5,11,12,33,35} is also available for \$69.99.**

Launcher
Required (Free)

Connect
Required (Free)

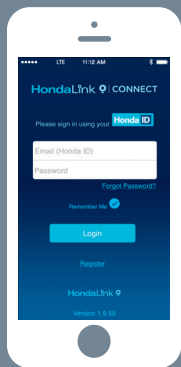

Aha
Recommended (Free)

Navigation
Optional (\$69.99**)

**Plus applicable tax. Price is subject to change.

3. Register through any of the apps, or use an existing Honda ID (which is the same as your MyHonda.ca login). Access the entire suite of apps with one login.

4. Ensure that Bluetooth is enabled on your phone. To verify, open Settings on your compatible iPhone, then ensure Bluetooth is turned on. Remain on this screen to make your phone discoverable to the Display Audio unit.

5. On the Display Audio¹² screen, select the Settings icon, Bluetooth Device List, then Add Bluetooth Device. Please note that to use the apps, your iPhone must be actively paired with the Display Audio system.

▶ **Bluetooth Device List** ▶ **Add Bluetooth Device**

6. Connect the HDMI[®] and USB cables to the appropriate jacks below the Display Audio panel, then to the Lightning AV Adapter. Next, connect the adapter to your iPhone.

7. Start your vehicle. Once the Display Audio's home screen is displayed and the Bluetooth icon appears, confirming your phone is paired, touch the CONNECT icon on the Display Audio screen, then select "Allow" on your compatible iPhone when prompted.

HELPFUL HINTS*

- **Smartphone cannot connect with the Display Audio system while locked.**

Unlock your phone before connecting.

- **Smartphone may disconnect from Display Audio due to notifications.**

Safely stop and park your vehicle, close the pop-up and reconnect. To minimize interruptions, you may be able to modify your pop-up notification in your smartphone's settings (see [honda.ca/hondalink](https://www.honda.ca/hondalink) for modification steps).

- **Smartphone must request permission to connect with Display Audio.**

To ensure authorized use, you must select "Allow" each time you connect.

*Only connect your smartphone when conditions allow you to do so safely.

¹Only compatible with certain devices and operating systems. Devices, cables and adapters are not included and must be purchased separately.

²Cellular data and/or voice charges may apply, including roaming charges and/or other amounts charged by your wireless carrier. ³Some laws prohibit the operation of electronic devices while operating a vehicle. Launch applications and perform other operations on electronic devices only when the vehicle is safely parked. Certain functionalities may be locked while vehicle is operational. ⁴Compatible smartphone required. All Aha platform feeds are audible, not visual in nature. Vehicle does not provide any feeds. ⁵Registration required. Application download may be required. Depending on use, HondaLink™ can transmit to Honda and its providers: (i) a vehicle's location, speed and other operating conditions; and/or (ii) information that may be tied to the vehicle identification number (VIN). Such information can be combined to track a vehicle. For a full explanation of HondaLink™ functionality and Honda's data use and privacy policy, see www.honda.ca/hondalink. HandsFreeLink™-bilingual Bluetooth™ wireless mobile phone interface may be required for certain services, features and/or applications. Some services, features and/or applications are dependent upon cellular data and/or voice availability and may require use of GPS for location-based content. Continued use of GPS running in the background can decrease battery life. Subject to applicable law, Honda reserves the right to terminate HondaLink™ services, features and/or applications at any time or for any reason, and in the future may not be able to provide services, features and/or applications due to changes in technology, law or government regulation. For a full list of vehicles, devices and operating systems currently compatible with HondaLink™, please visit www.honda.ca/hondalink. ⁶Where a vehicle has a built-in Honda navigation system, this service may provide only a limited number of additional features. Requires one-time download of HondaLink™ Navigation application (CAD\$69.99 plus applicable taxes). Price is subject to change.
