

2017 Ridgeline

Life isn't about a white picket fence with a two car garage. It's not about watching the seconds tick by until the clock says you're done for the day. It's about discovery. Making the unfamiliar feel familiar. Turning sunsets into sunrises with friends new and old along for the ride. It's about starting an adventure and finding out where you'll end up. It's about the journey and that starts right here.

● FIND A BEATEN PATH

● FIND A KILLER VIEW

● FIND YOURSELF

Country-born, city-driven.

The hard-working 2017 Ridgeline is back, ready to take on practically anything you or the road can throw at it. Sure, we've made it more capable with a longer, wider bed, and upped its performance, but we've also made it way more fun. It's proud to be even nerdier with innovative features like Apple CarPlay™^{1,2} / Android Auto™^{1,2}, an available Truck-Bed Audio System™ and standard Honda Sensing™ technologies, designed to make it more aware of the road. If you like your toys to look as good as they work, then the Ridgeline is the truck for you.

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.
2. Only compatible with certain devices and operating systems. Cellular data and/or voice charges may apply, including roaming charges and/or other amounts charged by your wireless carrier.

Who said real trucks can't have curves?

Just because the Ridgeline has a pretty face doesn't mean it's a stranger to hard work. The UV-stabilized and scratch-resistant bed is engineered to keep your Ridgeline looking fresh every day. It works around the clock to help protect your ride from any ticks, dings or scrapes. No matter where you are, hold down the fort with eight heavy-duty tie-down cleats to help keep everything in its place. When you need to be seen, available projector-beam LED headlights help to make sure your presence is known. On hot days, you'll love opening the one-touch power moonroof with tilt feature. It'll get fresh air circulating and let you soak up some sun. Who would've thought a truck could look this good? Well, we did.

Key Feature: Available power-sliding rear cabin window with defroster

● HOUR ONE:
HIKE A MOUNTAINTOP

430

● HOUR TWO:
FEEL ON TOP OF THE WORLD

430

Accessorized model shown.

● HOUR FIVE:
FIND AN EASIER WAY DOWN

430

Keep your distance outside. And inside.

If you thought the bed was roomy, wait until you're inside the cabin. The Ridgeline sports segment-leading interior spaces, making it one of the largest and most versatile cabins out there. For anything coming along for the ride, the 60/40 lift-up rear seat bends over backwards to help you store the stuff you don't want hauled in the bed. On those cold days to the ski hill or on the job, you and your lucky passengers will forget how you lived without heated front seats or available heated rear seats. For those fickle passengers in the front and back, the available tri-zone automatic climate control helps settle any arguments on the perfect temperature by letting them choose their own. The best part of your A to B won't be arriving. It'll be getting there.

● SEE THE CITY FROM THE BRIDGE

● SEE IT FROM THE STREETS

● SEE IT ONE LAST TIME FROM YOUR REARVIEW

It's back in black.

No matter where you're going, you'll always look like you're dressed for a night out. The Black Edition Ridgeline may be new, but it's already a classic. Outside, the black chrome grille bar, black door handles and 18" black aluminum-alloy wheels complement its uniformed yet aggressive new look. Inside, Black Edition seat stitching and floor mats add sophistication to the interior. Red ambient lighting in the foot well, door pocket and cup holders give it some flare and personality. The Black Edition Ridgeline isn't just tough. Some would even call it fancy.

Key Features: Black bumper skid garnish | Black Edition grille emblem

Grown ups still like to play with toys.

1

Available Truck-Bed Audio System™.

You've heard the saying before: Business in the front, party in the back. This couldn't be truer for the available Truck-Bed Audio System™. Whether you're camping, hanging out at a park with friends or catching some rays, nothing beats turning your favourite songs into the soundtrack of your life.

3

Available 150-watt/400-watt truck-bed power outlet.

The Ridgeline has plenty of power under the hood and plenty of power in the bed. The available truck-bed power outlet can help to keep some of your plug-ins fully juiced, whether it's a power tool, a floodlight or plugging in a flatscreen for an outdoor movie night.

5

7" colour TFT centre meter display.

Connect to your truck on a deeper level with the 7" colour TFT centre meter display. Besides displaying your vehicle's speed and tachometer, it also houses important vehicle information, like engine oil life, trip range and warning messages. Plus, you'll see your audio information and turn-by-turn directions when equipped with the available Honda Satellite-Linked Navigation System™^{1,3}.

2

8" Display Audio System¹ with Apple CarPlay™^{1,2} / Android Auto™^{1,2}.

The 8" Display Audio System sits front and centre of your rig. It'll let you play your music loud and proud, use your navigation features and access your settings with a pinch, swipe and tap. Plus, it'll now connect you to more of the world you're leaving behind with Apple CarPlay™ and Android Auto™, which put some of your apps right on your display.

4

Available Honda LaneWatch™ blind spot information system¹.

Get to know the road, better. The available Honda LaneWatch™ blind spot information display is designed to help you see what's in your blind spot. Once you've signaled right, your Display Audio System shows your right blind spot onscreen with a direct feed from a camera mounted under the passenger-side mirror. You'll see nearly four times more of the road than just using your side mirror.

6

Available Honda Satellite-Linked Navigation System™^{1,3}.

This thing knows maps like the back of its screen. The available Honda Satellite-Linked Navigation System™ with bilingual Voice Recognition is at your beck and call. Aside from turn-by-turn directions, it also guides you with improved graphics, 3D landmark displays, highway signs, speed limit display, arrival time and lane guidance.

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.

2. Only compatible with certain devices and operating systems. Cellular data and/or voice charges may apply, including roaming charges and/or other amounts charged by your wireless carrier.

3. Map database covers major metropolitan areas in Canada and the 48 contiguous U.S. states.

No job too small, medium or XL.

The Ridgeline has your back, quite literally. It's there to hold on to practically anything you're packing in the back while you hold on to the wheel up front. After you've enjoyed the comforts of the cabin, you'll feel even more comfortable knowing that the lockable In-Bed Trunk™ helps to protect anything you store in it. To make a good thing even better, the bed is now longer and wider (5'4" x 5') with 4'2" of clearance between the wheel wells. Whether it's a kayak, a sheet of drywall or strapping in the ATV, the dual-action tailgate opens up to make storing and securing your gear a snap¹. Like a good friend, the Ridgeline is always ready to help you move.

Key Feature: Segment-exclusive 4'2" flat bed space

¹. Please ensure that all in-bed items are properly stored, secured and carried in compliance with local laws.

Pick up and go.

Whether you're tackling endless DIY projects, hauling the family to the cottage or powering through your 9 to 5, the Ridgeline is right there by your side. The 3.5-litre, Direct Injection i-VTEC® V6 engine with 280 hp¹ and 262 lb.-ft of torque¹ gives you enough power to keep you and your passengers in the back of your seats. Teamed up with the Intelligent Variable Torque Management (i-VTM4™) AWD system, Ridgeline is designed to deliver the performance you want and responsiveness you need. If you're taking the road less travelled or the weather's uncooperative, the Intelligent Traction Management System lets you choose between Normal, Snow, Mud or Sand modes to help keep you grounded. The Ridgeline is only limited by what you can throw at it.

Key Feature: Segment-exclusive torque vectoring AWD

1. Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures.

Senses the unknown, then makes it known.

The Honda Sensing™ technologies are designed to help make your drive safer. With intuitive technology and design, we've created a way forward that we can all feel good about. Whether you're driving or sitting in the passenger seat, feel confident in the latest in safety innovation from Honda.

Forward Collision Warning (FCW) system.

The FCW system¹ that is integrated with CMBS® is designed to detect the presence of vehicles in front of you and issue alerts if you're approaching with too much speed. If you fail to respond to the alerts, the CMBS® is triggered into operation.

Collision Mitigation Braking System™ (CMBS®).

To help reduce the likelihood or severity of a frontal impact, the CMBS®¹ is engineered to apply brake pressure if you don't slow down when it senses you're at risk of a collision. If it still senses an imminent collision, CMBS® is designed to brake firmly.

Lane Departure Warning (LDW) system.

The LDW system¹ is designed to monitor vehicle lane position and alert you if your vehicle drifts into a new lane when you haven't signaled.

Lane Keeping Assist System (LKAS).

The LKAS¹ is engineered to gently correct your steering if you begin to leave a detected lane without signaling, applying torque progressively to the steering to help guide you back to the centre of the lane.

Road Departure Mitigation (RDM) system.

The Road Departure Mitigation system¹ is designed to help steer and even apply the brakes to help keep the vehicle from leaving the road.

Adaptive Cruise Control (ACC).

The available ACC system¹ is designed to keep a set speed and set following interval behind the vehicle detected ahead of yours.

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.

Solid on safety.

At Honda, we strive to provide a high level of standard safety features to help ensure the safety of occupants, other drivers and even pedestrians. This added peace of mind helps our drivers maintain the confidence to enjoy every road to the fullest.

PASSIVE SAFETY

Advanced Compatibility Engineering™ (ACE™) body structure

The highly innovative, next generation Advanced Compatibility Engineering™ (ACE™) body structure is engineered to help disperse frontal impact energy to enhance occupant protection, while more effectively controlling it in severe collisions to help prevent intrusion into the passenger cabin.

HondaLink™ Assist Automatic Emergency Response System

The HondaLink Assist Automatic Emergency Response System^{1,3,4} helps you get the help you need when you need it most. If the airbags deploy, your Display Audio System¹ is engineered to automatically attempt to put you on a call with an operator who will forward your location to first responders if needed. It works with any compatible Bluetooth®-paired phone as long as it has reception, does not require a subscription and gives you added peace of mind while you're on the road.

Seat belt safety

The Ridgeline helps prepare you for the unexpected with 3-point height-adjustable front seat belts with automatic tensioning system, and 3-point rear seat belts.

Child safety

The Ridgeline features childproof rear door locks, as well as rear seat Lower Anchors and Tethers for Children (LATCH), which give you a simple and convenient method to install compatible child safety seats without using the vehicle's seat belt system.

Pedestrian safety

Innovative pedestrian safety features include an energy-absorbing hood and front fenders and deformable wiper pivots.

Six standard airbags

The cabin of the Ridgeline contains six standard airbags. It features dual-stage, multiple-threshold front airbags, as well as side curtain airbags with rollover sensors, which are designed to deploy the side curtain airbags in the event of a rollover. Plus, it has Smartvent™ side airbags, which are designed to deploy safely in a manner that mitigates the risk of injury to out-of-position or smaller occupants.

Solid frame structure

Like all Honda trucks, the Ridgeline is built with a rigid unit-body frame for added strength, stability and vehicle handling.

ACTIVE SAFETY

Controlled braking

To assist with safe stopping, the 4-wheel Anti-lock Braking System¹ (ABS) is designed to help you maintain control under hard braking conditions, while Electronic Brake-force Distribution (EBD) helps to optimize braking power based on weight distribution inside the vehicle. In addition, Brake Assist is engineered to help improve braking performance by applying brake pressure when a panic stop is detected.

Tire Pressure Monitor System (TPMS)

To promote enhanced safety and fuel efficiency, the Tire Pressure Monitoring System² continually checks the air pressure in each tire. If pressure drops in any tire, the driver receives a dashboard alert.

Vehicle Stability Assist (VSA®) with Traction Control

Vehicle Stability Assist¹ with Traction Control is designed to sense and help correct oversteer and understeer scenarios to enhance handling and cornering stability, while Traction Control is designed to minimize wheel spin when accelerating on loose or slippery surfaces, helping to inspire greater driver confidence.

Hill Start Assist¹

When you take your foot off the brake, this feature is engineered to temporarily maintain brake pressure to help prevent your Ridgeline from starting to roll backwards when stopped on an incline.

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.
2. For optimal tire wear and performance, the pressure should be checked regularly with a tire gauge. Do not rely solely on the monitor system.
3. Only compatible with certain devices and operating systems. Cellular data and/or voice charges may apply, including roaming charges and/or other amounts charged by your wireless carrier.
4. Operation requires wireless mobile phone to be paired with the vehicle. Operation is dependent upon cellular data and/or voice connection availability and GPS satellite signal reception.

Blue Skies for Our Children

The Power of Dreams, in all their forms.

At Honda, we're committed to being a leader in innovative thinking. It's part of everything we do, from the design of our vehicles to the way we work. We have a proud tradition of turning ideas into products and initiatives that help move and improve people's lives in every conceivable way. Today, our innovation manifests itself in many forms: our revolutionary Earth Dreams™ technology; the race-inspired performance of our motorcycles and automobiles; the world's most advanced humanoid robot, ASIMO; HondaJet, the fastest, highest flying and most fuel-efficient aircraft in its class; and the first full line of fuel-efficient, low-emission, 4-stroke outboard motors. We continually strive to do things others think can't be done, because true innovation comes from daring to dream.

Beyond dreaming up new products, Honda believes we have a responsibility to help preserve our planet. This belief is why we make significant efforts to help ensure preservation of the environment in virtually all of our company's activities. It's why our head office in Markham, Ontario was designed and built to be LEED® (Leadership in Energy and Environmental Design) Gold Certified. It's why our Alliston, Ontario plant is ISO 14001 certified. And it's why Honda, along with our associates and families, has helped plant more than 100,000 trees in Canada over the last 9 years.

As we move forward, we will continue to honour our responsibility and tradition of turning innovative ideas into products that help make our world a better place. That's what we do. That's The Power of Dreams.

HONDA
The Power of Dreams

We’re Here. At Honda, assistance and support are always available. The team of trained technicians at your Honda dealership will help keep your vehicle in terrific shape. If you need more information or assistance relating to your warranty, call us at 1-888-9-HONDA-9. For all of the latest Honda information, including product specifications, pricing, photos and more, visit honda.ca. It has everything you need to “design” your Honda and personalize it with items from a list of quality accessories.

We’re Ready to Help. When you purchase a new Honda, you automatically receive Honda Plus Roadside Assistance. This service is available to you, or any authorized driver, 24 hours a day, 7 days a week, anywhere in Canada or the continental United States. Coverage is for 3 years over an unlimited distance and includes a 24-hour toll-free Honda Plus Roadside Assistance number, mechanical breakdown towing, emergency roadside service and many other helpful features. Ask your dealer for more information.

Honda Plus Extended Warranty. Experience added protection with Honda Plus coverage that is behind you for the road ahead. With available coverage options of up to 8 years/200,000 km, you can choose the one that best suits your needs. With a plan this wide-ranging, the only thing that’s uncertain is where it will take you.

Honda Financial Services. Whether you buy or lease a Honda, Honda Financial Services can assist you with the process. Ask your dealer which lease or purchase plan best suits your needs.

New Honda Vehicle Warranty. The Honda warranty protection makes Power Train components a minor concern with the Honda 5-year/100,000-km No Nonsense Warranty. In addition to the Honda 5-year/100,000-km No Nonsense Warranty, you and your new Honda are protected by a Honda 3-year/60,000-km Distributor’s Warranty as well as an additional series of warranties for such items as emission controls, body corrosion and more.

Genuine Honda Accessories give you the opportunity to fine-tune your new Honda just how you like it. Whether you want to turn up the style, the versatility or the exclusivity, every accessory is designed and built to adhere to the strictest Honda standards. See your dealer for full details.

Genuine Honda Replacement Parts are made to the same exacting standards as original Honda components and are guaranteed by the Genuine Honda Parts Warranty. Using Genuine Honda Parts will help to maintain the quality, reliability and performance of your vehicle.

Always use seat belts and appropriate child seats. Children 12 and under are safest when properly restrained in a rear seat. Properly secure all items stored in the cargo area. Always read the vehicle owner’s manual for detailed vehicle operation and feature information.

Honda reserves the right to terminate or change any of the services and/or features listed in this brochure at any time, for any reason. Some features require registration. Certain features may transmit to Honda and/or other service providers a vehicle's location, operating conditions or other information that may be tied to the vehicle identification number (VIN) and can be combined to track a vehicle. 1. Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures.
2. Accessory towing kit required. Kits are available at an additional cost as a dealer-installed item. See your Owner's Manual for proper towing operation.
3. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.
4. For optimal tire wear and performance, the pressure should be checked regularly with a tire gauge. Do not rely solely on the monitor system.
5. Only compatible with certain devices and operating systems. Cellular data and/or voice charges may apply, including roaming charges and/or other amounts charged by your wireless carrier.
6. Operation requires wireless mobile phone to be paired with the vehicle. Operation is dependent upon cellular data and/or voice connection availability and GPS satellite signal reception.
7. HomeLink® can be programmed with codes of up to three remote-control devices (e.g., garage-door opener, home security system, etc.).
8. Map database covers major metropolitan areas in Canada and the 48 contiguous U.S. states.
9. Coverage varies by market.
10. Only available in certain areas. Includes a no-charge trial of three months.
11. Estimated fuel consumption based on Government of Canada's 5-cycle testing method. Your actual fuel consumption will vary based on driving habits and other factors – use for comparison only. For more information on 5-cycle testing, visit <http://vehicles.nrcan.gc.ca>.

Trims

- RIDGELINE LX
- KEY FEATURES:
- 3.5-litre, 24-valve, Direct Injection, SOHC, i-VTEC® V6 engine
 - Variable Cylinder Management® (VCM®)
 - Intelligent Variable Torque Management (i-VTM4™) AWD system
 - Intelligent Traction Management System
 - 6-speed automatic transmission with Grade Logic Control
 - 18" aluminum-alloy wheels
 - 2,268 kg (5,000 lbs) towing capacity¹
 - In-Bed Trunk™
 - Dual-action tailgate
 - 60/40 lift-up rear seat with underseat storage
 - Heated front seats
 - Front wiper de-icer
 - Remote engine starter
 - Body-coloured heated power door mirrors
 - Body-coloured door handles
 - Collision Mitigation Braking System™² (CMBS®) (HS*)
 - Forward Collision Warning² (FCW) system (HS*)
 - Lane Departure Warning² (LDW) system (HS*)
 - Road Departure Mitigation² (RDM) system (HS*)
 - Adaptive Cruise Control² (ACC) (HS*)
 - Lane Keeping Assist System² (LKAS) (HS*)
 - Hill Start Assist²
 - Multi-angle rearview camera² with dynamic guidelines
 - Proximity key entry system with pushbutton start
 - Walk-away door lock
 - HandsFreeLink™-bilingual Bluetooth® wireless mobile phone interface^{2,3} with steering-wheel mounted controls
 - Display Audio System² with HondaLink™^{2,3}
 - HondaLink™ Assist Automatic Emergency Response System^{2,3,4}
 - Apple CarPlay™^{2,3} / Android Auto™^{2,3}
 - 225-watt AM/FM/CD audio system with MP3/Windows Media® Audio playback capability and 7 speakers including subwoofer
 - USB device connector³ (2)
 - 4-wheel Anti-lock Braking System² (ABS) with Brake Assist and Electronic Brake-force Distribution (EBD)
 - Tire Pressure Monitoring System⁵ (TPMS) with tire fill assist
 - Trailer Stability Assist

- RIDGELINE SPORT
- ADDS TO OR REPLACES LX FEATURES:
- 18" aluminum-alloy wheels (Shark Grey)
 - One-touch power moonroof with tilt feature
 - Honda LaneWatch™ blind spot display²
 - Driver's seat with 10-way power adjustment including power lumbar support
 - Tri-zone automatic climate control with air-filtration system
 - Fog lights
 - LED daytime running lights
 - Mirror-integrated LED turn signal indicators
 - Power sliding rear cabin window with defrost
 - HomeLink® remote system⁶
 - Illuminated driver's and front passenger's vanity mirrors
 - Black bumper skid garnish

- RIDGELINE EX-L
- ADDS TO OR REPLACES SPORT FEATURES:
- Heated leather-wrapped steering wheel
 - Perforated leather-trimmed seating surfaces
 - Heated rear seats (outboard positions only)
 - Front and rear parking sensors
 - Passenger's seat with 4-way power adjustment
 - Auto-dimming rearview mirror
 - SiriusXM™⁷
 - Adjustable driver's seat armrest
 - Acoustic windshield
