

2020
Pilot

Pilot EX-L in Platinum White Pearl.

This is where it begins.
Where their goals
become yours too.
You're still driven,
but how you get there
is about to change.

Exterior/Black Edition 04	Honda Sensing™ Technologies 15
Interior 05	Safety 18
Versatility 07	Colours & Trims 19
Performance & Efficiency 10	Warranty 22
Technology 11	The Power of Dreams 23

OVERVIEW

Settling down doesn't mean having to settle.

Journeyers, meet the 2020 Pilot – the Honda paragon of utility and efficiency. Equipped with the Earth Dreams™ engine and available idle-stop, the Pilot is as smart as it is stylish. Its roomy interior seats up to eight passengers¹, and third-row access is a breeze using the available one-touch second row seats. Plus, its cargo capacity makes any packing list just about limitless. Honda Sensing™ safety technologies come standard, so you'll take confidence with you on every trip. With a sophisticated interior inside the modern, sleek exterior, you won't just catch attention – you'll ride comfortably at the centre of it. The 2020 Pilot is confident, bold and ready for anything. Are you?

Key Features: Honda Sensing™ Technologies, Apple CarPlay™^{2,3} / Android Auto™^{2,3}, Intelligent Variable Torque Management (i-VTM4™) AWD system, available seating for up to 8¹, available Satellite-Linked Navigation System™^{2,4} available Advanced Rear Entertainment System with Blu-ray™ player

1. Seven passengers on the seven-passenger Touring and Black Edition models with second-row captain's chair.
2. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.
3. Only compatible with certain devices and operating systems. Operation may be dependent upon: 1. GPS satellite signal reception and available cellular data and/or voice connection; or 2. connection to vehicle's built-in Wi-Fi hotspot, if applicable. Associated charges (incl. data plans, roaming charges or other amounts charged by your wireless carrier) may apply.
4. Map database covers major metropolitan areas in Canada and the 48 contiguous U.S. states.

Pilot EX-L in Obsidian Blue Pearl.

EXTERIOR/BLACK EDITION

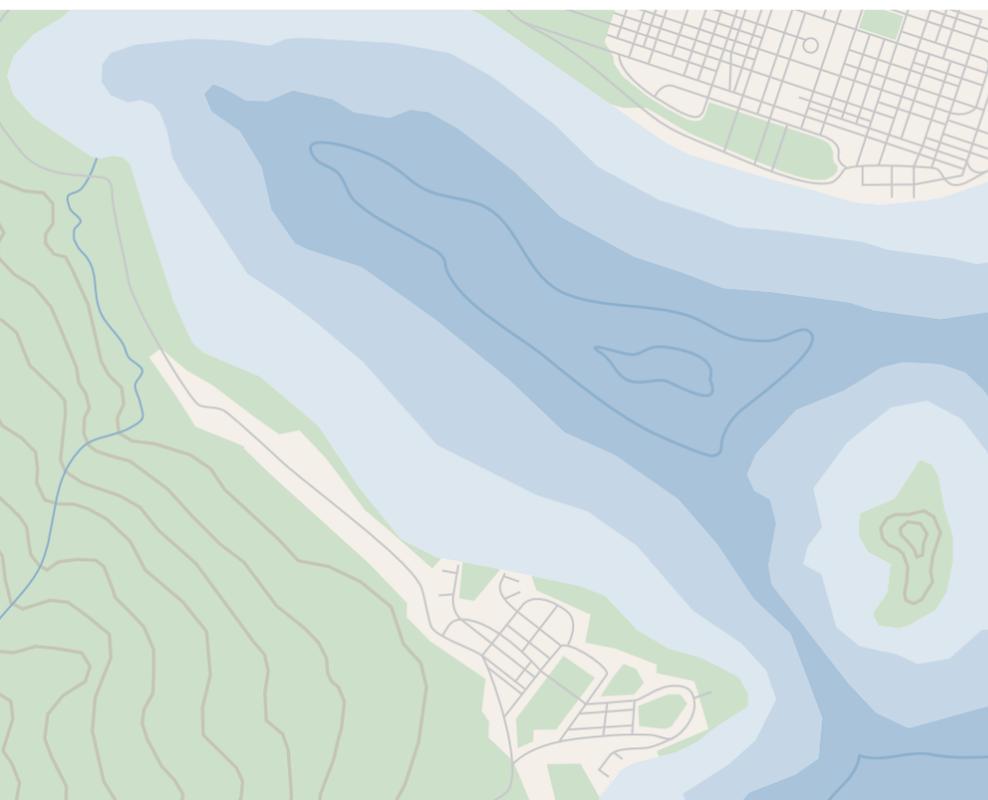

This Pilot is a bit of a maverick.

In the 2020 Pilot, you can either take the scenic route, or you can be the scene itself. In addition to its sleek body, the 18" aluminum-alloy wheels, the LED daytime running lights and the LED taillights blend style with function. And while others stare, you'll see more clearly thanks to the multi-angle rearview camera¹ with dynamic guidelines.

Want to give the smooth, sculpted styling of your Pilot a little more edge? The Black Edition Pilot brings the attitude, and everything else you'll need. 20" black aluminum-alloy wheels, a gloss black finish front grille bar and black door handles bring a refined, yet assertive exterior to life, while Black Edition seat stitching and floor mats ensure the interior is a sight to behold, and be envied.

Key features: LED headlights with auto-on/off, LED daytime running lights, available LED fog lights, available 20" aluminum-alloy wheels, available roof rails

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.

INTERIOR

Suddenly, every trip is an all-inclusive.

The interior of the 2020 Pilot surrounds you and your passengers in sophistication thanks to the available interior ambient lighting and soft-touch dash and door materials. And with the available perforated leather-trimmed seating surfaces and the available leather-wrapped heated steering wheel, every ride is steeped in refinement. While the available panoramic moonroof brightens the cabin, the heated front seats and available heated second-row outboard seats make it even cozier to ride in. When comfort meets style, the Pilot makes every ride worth savouring.

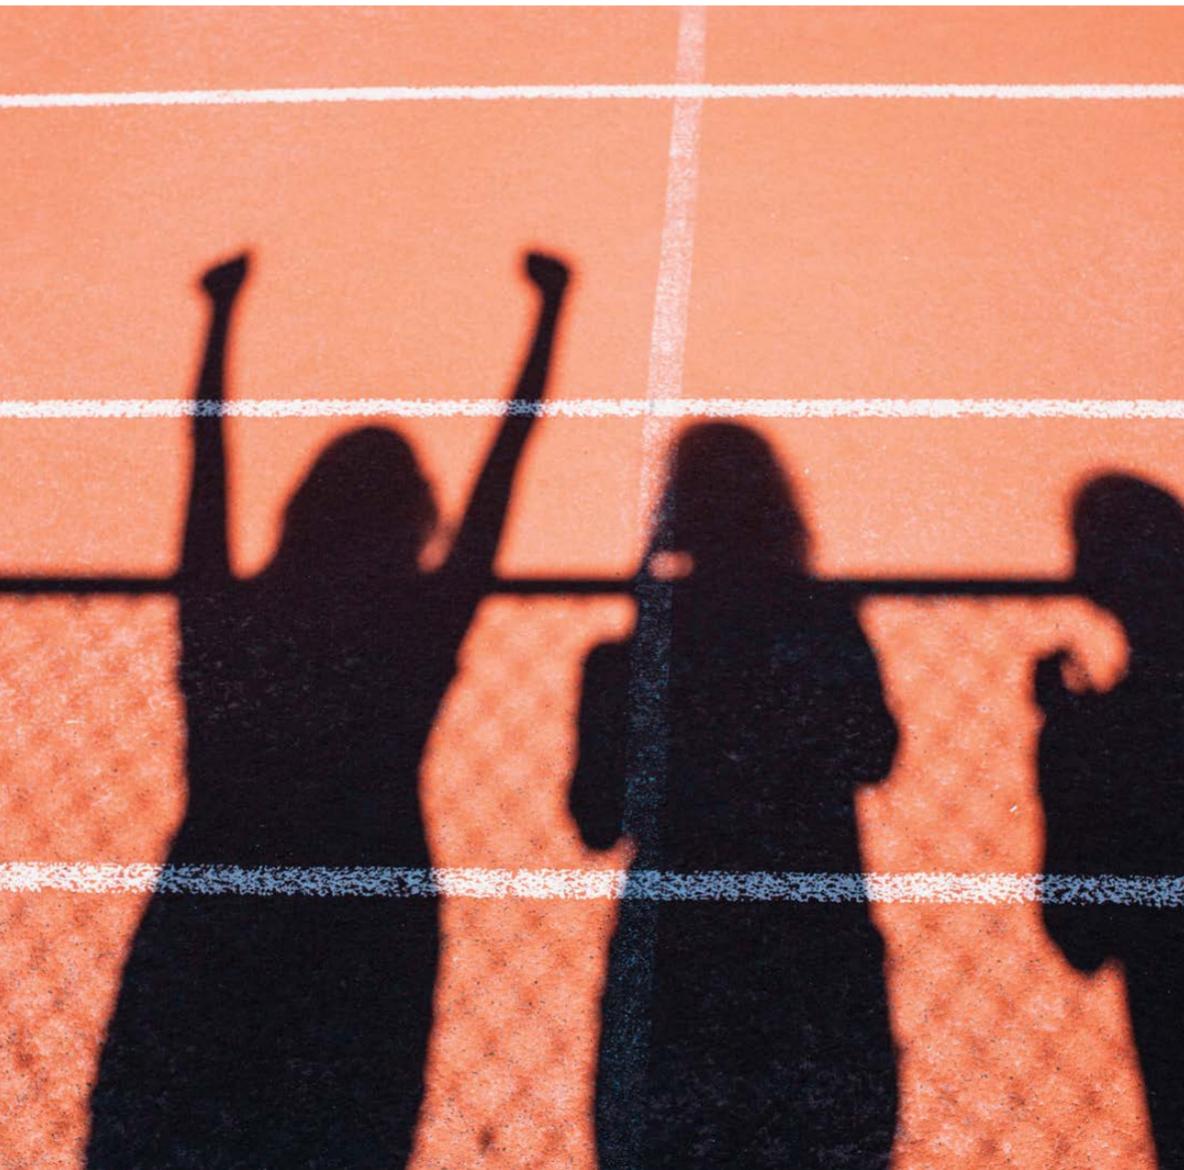

Key features: Remote engine starter, driver's seat with available 10-way power adjustment including power lumbar support, proximity key entry system and pushbutton start, tri-zone automatic climate control, available panoramic moonroof, available memory-linked side mirrors and driver's seat position

VERSATILITY

The 2020 Pilot has room for up to eight passengers (seven on the seven-passenger Touring and Black Edition models with the second-row captain's chairs) and includes effortless third-row access using the available one-touch second row seats. When you need to load gear, groceries or goodies, the Pilot is up to the task with easy fold-down 60/40 split-folding rear seats in both the second and third row. Plus, the rear cargo boasts ample space, easily fitting a 77.6-litre (82-quart) cooler.

Key Versatility Features: 8 passenger seating (7 passenger seating on 7-passenger Touring and Black Edition models), 60/40 split-folding second-row and third-row seats, reversible cargo lid with hidden cargo mode, centre console with smartphone sliding tray, available one-touch second row seats

Pilot LX in Modern Steel Metallic

Pilot LX in Modern Steel Metallic.

PERFORMANCE & EFFICIENCY

Performance that fits your life.

From what's inside to what's under the hood, with the Earth Dreams™ technology engine, the 2020 Pilot is designed to enhance fuel efficiency ratings without sacrificing performance. And to help every litre go further, the Variable Cylinder Management® (VCM®) system is designed to automatically switch between 6 and 3 cylinders, depending on the driving conditions. When you're ready to ride, the Pilot has enough stop and go to handle the ups, downs and turns that virtually any trip can offer.

Key Performance Features: 3.5-litre, 24-valve, Direct Injection, SOHC, i-VTEC® V6 engine with Variable Cylinder Management® (VCM®), 280 horsepower¹ and 262 lb.-ft of torque¹, 1,588 kg or available 2,268 kg towing capacity², 6-speed or available 9-speed automatic transmission, Intelligent Variable Torque Management (i-VTM4™) AWD system, Intelligent Traction Management system, available steering wheel-mounted paddle shifters, available idle-stop technology

1. Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures.
2. Accessory towing packages required, available at an additional cost as a dealer-installed item. See your Owner's Manual for proper towing operation.

TECHNOLOGY

Get their show on the road.

A road trip is the perfect way to unwind, sightsee, and get lost in the moment. And the Pilot is a multitasker loaded with sophisticated tech features designed to get you on your way, without losing your way.

With Apple CarPlay™^{1,2} and Android Auto™^{1,2}, your Pilot has the soul of a smartphone. The available Honda Satellite-Linked Navigation System™^{1,3} lets you plan as you go with arrival time and lane guidance, while the available Honda LaneWatch™ blind spot display¹ helps you to keep more of your right side in sight. And no matter where your outing takes you, keep the gang entertained with the available Advanced Rear Entertainment System with Blu-ray™ player and 10.2" screen.

1. Apple CarPlay™^{1,2} / Android Auto™^{1,2}

2. Available CabinTalk™ in-car PA

3. Multi-angle rearview camera¹ with dynamic guidelines

4. Available Blind Spot Information (BSI) system¹ with Rear Cross Traffic Monitor¹ system

5. Available Display Audio System¹ with Honda Satellite-Linked Navigation System™^{1,3} and bilingual Voice Recognition

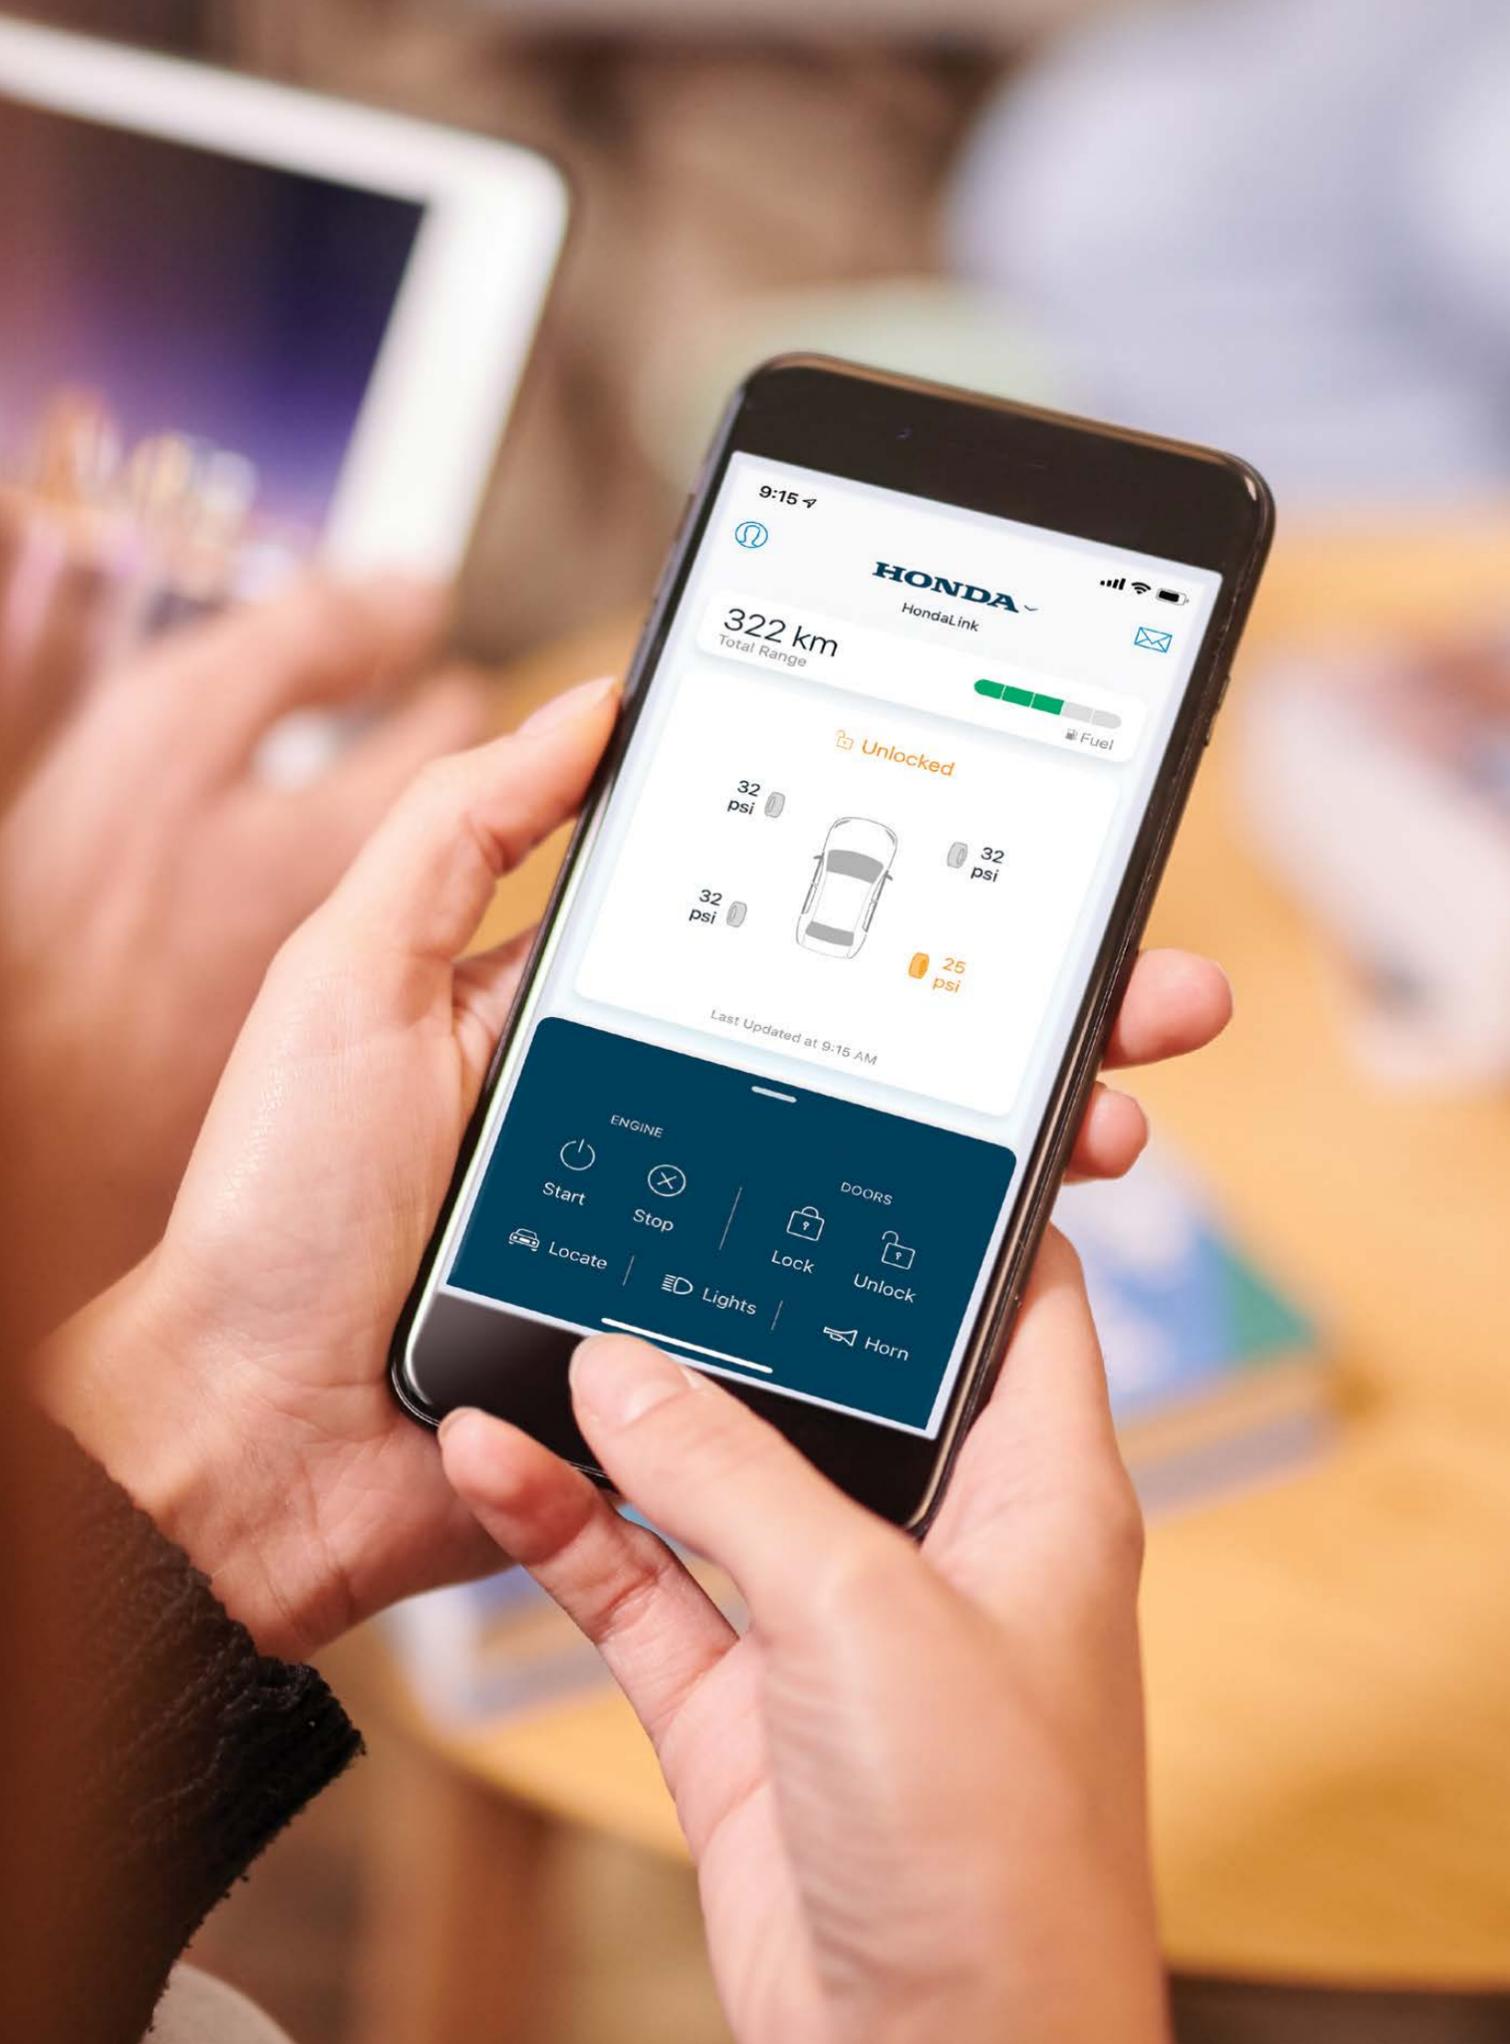

6. Available Advanced Rear Entertainment System with 10.2" display

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.

2. Only compatible with certain devices and operating systems. Operation may be dependent upon: 1. GPS satellite signal reception and available cellular data and/or voice connection; or 2. connection to vehicle's built-in Wi-Fi hotspot, if applicable. Associated charges (incl. data plans, roaming charges or other amounts charged by your wireless carrier) may apply.

3. Map database covers major metropolitan areas in Canada and 48 contiguous U.S. states.

Peace of mind in the palm of your hand.

The Pilot is just as tech-savvy as you. The available HondaLink™ Subscription Services helps connect you to a world of features both inside and outside of your vehicle, while other available apps and features are designed to entertain and inform.

HONDALINK™^{1,2,3} SUBSCRIPTION SERVICES

Remote Door Lock/Unlock

Whether you're locked out or forgot to lock up, count on quick, keyless entry and remote assurance from almost anywhere.

Geofence Alert

Get notified when your car enters or leaves a designated region.

Stolen Vehicle Locator

Designed to help recover your stolen vehicle faster. The system uses sophisticated technology to assist the authorities with attempting to find your vehicle.

Auto Collision Notification (ACN)

In the event of an accident, a Response Agent automatically checks in and helps send emergency care, even when passengers aren't able to respond.

ADVANCED CONNECTIVITY

AT&T Wi-Fi Hotspot

Connect up to seven compatible devices with your vehicle's available built-in Wi-Fi hotspot^{2,4}. Enjoy up to 4G LTE speeds on multiple devices. From the open road, you'll be able to stream hours of videos, play games, get real-time email access and surf the web. You'll be able to stay connected up to 50 feet away from your Pilot.

CabinControl™ app

The standard CabinControl™^{1,2} feature gives everyone the opportunity to control the rear temperature, add music to a playlist and send an address to the available Honda Satellite-Linked Navigation System™^{1,5}.

"How Much Farther?"[®] app

The available "How Much Farther?"[®] app⁵ is a child-friendly navigation tracking App built in to the Rear Entertainment System. Using multiple background themes with animation, your passengers can track the trip's progress in a fun and interactive way.

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.

2. Only compatible with certain devices and operating systems. Operation may be dependent upon: 1. GPS satellite signal reception and available cellular data and/or voice connection; or 2. connection to vehicle's built-in Wi-Fi hotspot, if applicable. Associated charges (incl. data plans, roaming charges or other amounts charged by your wireless carrier) may apply.

3. Subscription to HondaLink™ services is required. HondaLink™-equipped vehicles come with complimentary time-limited trial subscriptions; fees, taxes and other charges will apply in order to continue subscription services upon trial expiry. The availability of certain GPS satellite and/or cellular networks is required for HondaLink™ to operate properly. Service interruptions may occur and/or vehicle system upgrades may be required if cellular network availability is compromised. Some restrictions may apply. For additional HondaLink™ information, please visit www.honda.ca/hondalink and www.honda.ca/privacy.

4. New vehicles are equipped with a complimentary time or data trial period, whichever comes first. After the trial period, contact AT&T or visit att.com/honda to purchase available data plans. 4G LTE connection speeds may vary by region.

5. Map database covers major metropolitan areas in Canada and the 48 contiguous U.S. states.

Has a sixth sense for safety.

The Pilot comes standard with Honda Sensing™ technologies. These safety and driver-assistive technologies are designed to help improve the driver's situational awareness, and, in some cases, intervene to help avoid a collision or lessen its severity.

BRAKE

Forward Collision Warning (FCW) system

The FCW system¹ is designed to detect the presence of vehicles in front of you and issue audible, visual and tactile alerts if you're approaching with too much speed. If you fail to respond, CMBS[®] is triggered into operation.

Collision Mitigation Braking System™ (CMBS[®])

To help reduce the likelihood or severity of a frontal impact, CMBS[®] is engineered to apply light brake pressure if you don't respond to FCW system alerts. If it still senses an imminent collision, CMBS[®] is designed to brake forcefully.

Lane Departure Warning (LDW) system

The LDW system¹ is designed to monitor vehicle lane position and issue visual and tactile alerts if your vehicle drifts into another detected lane without signaling.

Lane Keeping Assist System (LKAS)

The LKAS¹ is engineered to gently correct your steering if you begin to leave a detected lane without signaling, applying torque progressively to the steering to help guide you back to the centre of the lane.

Road Departure Mitigation (RDM) system

The RDM system¹ is designed to help steer and even apply the brakes if it detects that your vehicle may leave the road.

Adaptive Cruise Control (ACC)

The ACC system¹ is designed to keep a constant speed and set following interval behind a vehicle detected in front of you.

¹ None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.

Solid on safety.

At Honda, we strive to provide a high level of standard safety features to help ensure the safety of occupants, other drivers and even pedestrians. This added peace of mind helps our drivers maintain the confidence to enjoy every road to the fullest.

PASSIVE SAFETY

Advanced Compatibility Engineering™ (ACE™) body structure

The highly innovative, next generation Advanced Compatibility Engineering™ (ACE™) body structure is engineered to help disperse frontal impact energy to enhance occupant protection, while more effectively controlling it in severe collisions to help prevent intrusion into the passenger cabin.

Solid frame structure

Like all Honda trucks, the Pilot is built with a rigid uni-body frame for added strength, stability and vehicle handling.

Child safety

The Pilot features childproof rear door locks as well as rear seat Lower Anchors and Tethers for Children (LATCH), which give you a simple and convenient method to install compatible child safety seats without using the vehicle's seat belt system.

Seat belt safety

The Pilot helps prepare you for the unexpected with 3-point height-adjustable front seat belts with an automatic tensioning system, and 3-point rear seat belts in the second and third rows.

HondaLink™ Assist Automatic Emergency Response System

The HondaLink Assist Automatic Emergency Response System^{1,3,4} helps you get the help you need when you need it most. If the airbags deploy, your Display Audio System¹ is engineered to automatically attempt to put you on a call with an operator who will forward your location to first responders if needed. It works with any compatible Bluetooth®-paired phone as long as it has reception, does not require a subscription and gives you peace of mind while you're on the road.

Six standard airbags

The cabin of the Pilot contains six standard airbags. It features an advanced front airbag system as well as three-row side curtain airbags with rollover sensors, which are designed to deploy the side curtain airbags in the event of a rollover. Plus, it has SmartVent™ side airbags, which are designed to deploy safely in a manner that mitigates the risk of injury to out-of-position or smaller occupants.

Pedestrian safety

Innovative pedestrian safety features include an energy-absorbing hood and front fenders and breakaway wiper pivots.

ACTIVE SAFETY

Controlled Braking

To assist with safe stopping, the 4-wheel Anti-lock Braking System¹ (ABS) is designed to help you maintain control under hard braking conditions, while Electronic Brake-force Distribution (EBD) helps to optimize braking power based on weight distribution inside the vehicle. In addition, Brake Assist is engineered to help improve braking performance by applying brake pressure when a panic stop is detected.

Vehicle Stability Assist (VSA®) with Traction Control

Vehicle Stability Assist¹ is designed to sense and help correct oversteer and understeer scenarios to enhance handling and cornering stability, while Traction Control is designed to minimize wheel spin when accelerating on loose or slippery surfaces, helping to inspire greater driver confidence.

Hill Start Assist¹

If you take your foot off the brake when stopped on an incline, this feature is engineered to temporarily maintain brake pressure to help prevent your Pilot from starting to roll backwards.

Auto high beam¹

The auto high beam feature automatically changes the low beam headlights to high beam headlights in certain circumstances to help improve your vision.

Tire Pressure Monitoring System (TPMS)

To promote enhanced safety and fuel efficiency, the Tire Pressure Monitoring System² continually checks the air pressure in each tire. If pressure drops in any tire, the driver receives a dashboard alert.

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.

2. For optimal tire wear and performance, the pressure should be checked regularly with a tire gauge. Do not rely solely on the monitor system.

3. Only compatible with certain devices and operating systems. Operation may be dependent upon: 1. GPS satellite signal reception and available cellular data and/or voice connection; or 2. connection to vehicle's built-in Wi-Fi hotspot, if applicable. Associated charges (incl. data plans, roaming charges or other amounts charged by your wireless carrier) may apply.

4. Operation requires wireless mobile phone to be paired with the vehicle. Operation is dependent upon cellular data and/or voice connection availability and GPS satellite signal reception.

We're Here. At Honda, assistance and support are always available.

The team of trained technicians at your Honda dealership will help keep your vehicle in terrific shape. If you need more information or assistance relating to your warranty, call us at 1-888-9-HONDA-9.

For all of the latest Honda information, including product specifications, pricing, photos and more, visit honda.ca. It has everything you need to “design” your Honda and personalize it with items from a list of quality accessories.

We're Ready to Help. When you purchase a new Honda, you automatically receive Honda Plus Roadside Assistance. This service is available to you, or any authorized driver, 24 hours a day, 7 days a week, anywhere in Canada or the United States (including the lower 48 states, the District of Columbia, Alaska, Hawaii, and Puerto Rico). Coverage is for 3 years over an unlimited distance and includes a 24-hour toll-free Honda Plus Roadside Assistance number, mechanical breakdown towing, emergency roadside service and many other helpful features. Ask your dealer for more information.

Honda Plus Extended Warranty. Experience added protection with Honda Plus coverage that is behind you for the road ahead. With available coverage options of up to 8 years/200,000 km, you can choose the one that best suits your needs. With a plan this wide-ranging, the only thing that's uncertain is where it will take you.

Always use seat belts and appropriate child seats. Children 12 and under are safest when properly restrained in a rear seat. Properly secure all items stored in cargo areas. Always read the vehicle owner's manual for detailed vehicle operation and feature information.

Honda reserves the right to terminate or change any of the services and/or features listed in this brochure at any time, for any reason. Some features require registration. Certain features may transmit to Honda and/or other service providers a vehicle's location, operating conditions or other information that may be tied to the vehicle identification number (VIN) and can be combined to track a vehicle. For Honda's data use and Privacy Policies, see www.honda.ca/privacy. Specifications, features, illustrations and equipment shown in this brochure are based upon the latest available information at the time of publication. Although descriptions are believed to be correct, accuracy cannot be guaranteed. Honda reserves the right to make changes at any time, without notice or obligation, in colours, specifications, accessories, materials, models and trim availability. Some vehicles may be shown with optional equipment. Some vehicles shown may be U.S. models. Canadian specifications may vary. Service interruptions may occur and/or vehicle system upgrades may be required if cellular network availability is compromised. Some restrictions may apply. For additional HondaLink™ information, please visit www.honda.ca/hondalink and www.honda.ca/privacy.

6. HomeLink® can be programmed with codes of up to three remote-control devices (e.g., garage-door opener, home security system, etc.).

7. Map database covers major metropolitan areas in Canada and the 48 contiguous U.S. states.

8. Only available in certain areas. Includes a no-charge trial of three months.

9. New vehicles are equipped with a complimentary time or data trial period, whichever comes first. After the trial period, contact AT&T or visit att.com/honda to purchase available data plans. 4G LTE connection speeds may vary by region.

Here's to the dreamers.

The Power of Dreams

At Honda, The Power of Dreams drives us to create intelligent products that enhance mobility and increase the joy in people's lives. It is the mindset that guides us to help move people forward and protect the future we all share.

How do we do it? We never stop dreaming. In the 70s, we were the first automaker in the industry to voluntarily adhere to emissions standards. Now, we're advancing robotics and aviation, harnessing solar power and releasing a car that emits only water.

Through it all, our goal never changes: create a safer, smarter world in which people experience the joy of mobility.

The Honda Canada Foundation

The Honda Canada Foundation enables the realization of dreams by supporting people and organizations across the country that focus on four pillars: Family, Education, Environment and Engineering. Since 2005, more than 5.5 million Canadians have benefited from charitable programs funded by the Honda Canada Foundation.

Blue Skies for Our Children

We believe everything we do must exist in harmony with nature. That's where "Blue Skies for Our Children" was born. It's more than a mantra – it's an environmental pledge to the Earth and our future generations. And we're practicing what we preach.

Leading the LEED® certifications

Our sales offices also strive for environmental efficiencies. Honda's LEED® (Leadership in Energy and Environmental Design) Gold Certified Head Office campus in Markham, Ontario, includes green features such as a storm water management system, heat-reflective materials on the roof and bio swales for natural filtration. The facility uses 89 percent less litres of water per square foot and 38 percent less kilowatt hours of energy annually than the average office facility.

Zero Waste-to-Landfill

We don't waste time. Or anything else for that matter. Our goal is to increase our recycling efforts, reduce overall waste and divert materials from landfill sites. In fact, last year we sent less than one percent of waste to landfills from our office and parts distribution facilities combined.

One Honda. One Tree.

We're pretty obsessed with fresh air. For every lawn and garden or ATV product sold between April 1 and July 31 annually, the Honda Canada Foundation plants one tree. In the last 12 years, we've helped plant more than 160,000 trees in Canada.

Environmental Vehicles & Technology

Blending style, efficiency and a serious amount of thrill, the Accord Hybrid makes environmental responsibility feel almost rebellious. Combining a lithium-ion battery with a 2.0-litre engine, this Hybrid lets you go more and stop less on the way. The Honda Insight exemplifies hybrid efficiency, powered by a 1.5-litre Atkinson Cycle engine, electric motor and lithium-ion battery. And the future looks brighter with Honda advancing Fuel Cell technology that emits zero emissions.

Honda Clarity Plug-in Hybrid

Whoever said an eco-conscience came with compromise was sorely mistaken. This advanced plug-in hybrid vehicle lets you tap into electric power alongside the gas engine to create extra efficiency.
