

2019 Civic Lineup

Sometimes, our destination isn't clear.
We prepare for the road ahead,
but there will always be unexpected
twists, turns, and detours.
So, what does one do?
Buckle up – and enjoy the ride.

Colours	32–36
Trims	38–39
Specifications	40–48
Warranty	50
The Power of Dreams	52

From applause-worthy style
to outstanding performance,
everything you love about
the Civic is back.

Ready. Set. Civic.

The Civic keeps getting better. Since 1998, the Civic has been Canada's best-selling car and it's no wonder. The redesigned exterior and impressive performance of the 2019 Civic solidify its exciting evolution. The sport-inspired design is perfectly complemented by an available 1.5-litre turbocharged engine, while the striking interior is designed with both comfort and safety in mind. And with the Honda Sensing™ suite now standard across the Civic lineup (excluding Si and Type R models), you'll drive with even more confidence. Wherever the road leads, the Civic will lead the way.

Available leather-trimmed seating surfaces are as comfortable as they come.

Make a statement without saying a word.

Turns out, looks can get you everywhere. With a refreshed, aggressive new look and sporty, sleek lines, the Civic Sedan looks great from every angle. Up front, available 18" aluminum-alloy wheels, LED daytime running lights, available LED headlights and LED fog lights give the Civic an unmistakable presence that lets everyone know you're coming. On the inside, the available leather-wrapped steering wheel with mounted audio controls add a refined touch, while the available heated front and rear seats make the winter months feel like a breeze.

Those looking to take it up a notch should look no further than the available Sport trim. A refreshed styling highlights the low, wide stance, while dynamic accent lines run the length of the car. The restyled bumper, lower grille, deck lid spoiler, and new piano black upper fascia wing give the Civic Sedan a stylish edge in any setting, while the steering wheel-mounted paddle shifters, aluminum-trimmed sport pedals and sport deco inserts evoke the spirit of the track. So go ahead and be proud. Confidence looks good on you.

Key Features: Standard Honda Sensing™ technologies, Standard LED daytime running lights and available LED headlights and fog lights, Available 18" aluminum-alloy wheels, Available deck lid spoiler

Opt for a little more attitude with available 18" aluminum-alloy wheels in dark finish.

Two doors? Double take.

The Coupe boasts impressive exterior styling that is bound to attract stares. With a low-slung, aggressive stance and sleek, clean lines, the Coupe stands out from the crowd wherever it goes. Below its tough-looking shell sit standard 16" aluminum-alloy wheels, with available 18" options on the Sport, Touring or Si trims. Around the back, you'll catch yourself admiring the view thanks to the signature LED taillights and taillight-integrated rear spoiler as well as the available centre exhaust finisher.

For the pinnacle of both sport and style, opt for the available Sport trim. Steering wheel-mounted paddle shifters, aluminum-trimmed sport pedals and sport deco echo our racing heritage, while black combi seats perfectly balance both style and comfort. Once you grab the leather-wrapped steering wheel, it will all make sense.

The configurable 60/40 split fold-down rear seatback gives you the freedom to pack – and do – virtually anything.

Packs much more than a punch.

With a sporty design and innovative silhouette, the Civic Hatchback is guaranteed to get attention on the road and in your driveway. Its aggressive stance is boldly complemented by a distinctive body-coloured rear roofline spoiler and an available dual centre exhaust with chrome finisher. The available 18" aluminum-alloy wheels and the available stylish skirt package will catch eyes and turn heads. Plus, with the available LED headlights and a standard multi-angle rearview camera¹, you can keep a closer watch on your surroundings. Step into the Civic Hatchback and you'll surely stand out.

Key Features: Body-coloured rear roofline spoiler, Available 18" aluminum-alloy wheels with dark finish, Available dual centre exhaust with chrome finisher, Available LED headlights

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.

Raise the bar with a 2.0-litre engine or available turbocharged 1.5-litre engine.

Able and thrilling.

Whether it's a long drive, a short haul, an open road or rush hour traffic, you'll look forward to powering through it all with the Civic. The 1.5-litre turbocharged 4-cylinder engine is standard on the Civic Hatchback and available on the Sedan and Coupe. The 2.0-litre, 16-valve, DOHC, i-VTEC® engine is standard on the Sedan and Coupe. If you're the type who loves control, you'll love the standard 6-speed manual transmission (MT) on the Sedan (DX, LX, and Si), Hatchback (LX, Sport and Sport Touring) and Coupe (LX, Sport, and Si). If you just want to pop it in drive and go, the available continuously variable transmission (CVT) is everything you need. But if you're feeling eager, the available steering wheel-mounted paddle shifters make driving a truly hands-on experience. Plus, thanks to the available Eco Assist™ with ECON mode, the Civic is designed to help keep you on the road longer, and at gas stations less frequently.

Key Features: 6-speed manual transmission (MT) or available continuously variable transmission (CVT), Independent strut front and multi-link rear suspensions, Variable Ratio Electric Power-Assisted Rack-and-Pinion Steering (EPS), Available ECON mode button

Looks mean. Drives nice.

The Civic *Si* sports sharp looks to match its fierce personality. A bold, gloss black front grille, rear wing spoiler, 18" aluminum-alloy wheels and centre exhaust finisher put raceway style onto your driveway. Light up the road with attractive LED daytime running lights, LED headlights with auto-on/off and LED taillights. Or let in some extra light with the one-touch power moonroof with tilt function.

Key Features: 18" aluminum-alloy wheels, 6-speed manual transmission (MT), Apple CarPlay™^{1,2} / Android Auto™^{1,2}, Heated front seats, Honda LaneWatch™ blind spot display¹, One-touch power moonroof with tilt feature, Rear wing spoiler and centre exhaust finisher, Sport mode button

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.
2. Only compatible with certain devices and operating systems. Operation may be dependent upon GPS satellite signal reception and available cellular data and/or voice connection.

With red/black suede-effect fabric front sport seats, you'll be lapping the competition in the lap of luxury.

Cut to the chase.

For Honda, racing has always been the pinnacle of automotive art. Hence the Civic Type R: an eye-catching car for the road that just happens to hold the record lap time for a front-wheel drive car on the world-famous Nürburgring*. From the striking red/black suede-effect fabric front sport seats, to the bold rear wing spoiler, to the red-accented piano black 20" aluminum-alloy wheels, there's no hiding the racing pedigree of the Type R.

Key Features: 6-speed manual transmission (MT) with rev-match control, 20" aluminum-alloy wheels in piano black with red accents, Aluminum hood with air intake, Aluminum-trimmed sport pedals, Rear wing spoiler, Skirt package, Type R badging and unique serial number plate

*Based on information available to Honda Canada Inc. as of October 23, 2018.

Thanks to the helical limited slip differential, front-wheel slippage is minimized and steering precision is improved.

Find your apex.

The Civic Si commands respect and delivers outstanding performance on any street. With a 205-horsepower, 1.5-litre, 16-valve, Direct Injection, DOHC, turbocharged 4-cylinder engine with 192 lb-ft of torque¹, just strap in and let your right foot do all the talking.

Then there's the Civic Type R: the definition of uncompromising performance. Powered by a direct-injected 2.0-litre VTEC[®] turbocharged 4-cylinder engine with 306 horsepower and 295 lb-ft of torque¹, the only thing that matches its powerful looks is what's under the hood.

Type R Key Features: 2.0-litre, 16-valve VTEC[®] turbocharged 4-cylinder engine, 306 horsepower¹, 295 lb-ft of torque¹, 6-speed manual transmission with rev-match control, 3-mode drive system, Brembo[®] 4-piston aluminum front brake calipers, Triple centre exhaust

1. Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures.

Fast-forward thinking.

The available state-of-the-art 7" Display Audio System¹ is technology worthy of applause. Intuitive and easy to use, the 7" touch-screen works similar to a tablet. Just swipe, pinch and tap to navigate through the audio system, display settings and advanced features. Pair the Display Audio System with the available Apple CarPlay™^{1,2} or Android Auto™^{1,2} to seamlessly connect your compatible smartphone and access some of your apps to make staying in touch with family and friends more convenient and your drive more entertaining. Speaking of convenience, the overhead control panel features the available HomeLink® remote system³, which lets you program your vehicle to operate up to three compatible remote-controlled devices in your home, from your garage door to your home security system. The Civic also keeps your phone juiced, letting you drop any compatible smartphone into the available wireless charging pad.

With the 2019 Civic, hindsight is right in front of you. When you're in reverse, the multi-angle rearview camera¹ helps you see what's going on behind you. It's engineered to give you a clear line of sight from three different angles: wide, normal and top-down.

Keep more of your right side in sight with the available Honda LaneWatch™ blind spot display¹, which sends a live video feed to the 7" Display Audio System screen, revealing nearly four times more visibility than the side mirror alone. When you're on the road, the available Honda Satellite-Linked Navigation System™^{1,4} with bilingual Voice Recognition helps plan your route with ease. It's like asking someone for directions who actually knows where they're going.

Key Features: Available Honda LaneWatch™ blind spot display¹, Available Apple CarPlay™^{1,2} / Android Auto™^{1,2}, Available 7" Display Audio System¹, Available wireless charging, Available Honda Satellite-Linked Navigation System™^{1,4} with bilingual Voice Recognition, Multi-angle rearview camera¹

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.
 2. Only compatible with certain devices and operating systems. Operation may be dependent upon GPS satellite signal reception and available cellular data and/or voice connection.
 3. HomeLink® can be programmed with codes of up to three remote-control devices (e.g., garage-door opener, home security system, etc.).
 4. Map database covers major metropolitan areas in Canada and the 48 contiguous U.S. states.

Available Honda LaneWatch™ blind spot display¹

Available Apple CarPlay™^{1,2} / Android Auto™^{1,2}

Available 7" Display Audio System¹

Available wireless charging

Available Honda Satellite-Linked Navigation System™^{1,4} with bilingual Voice Recognition

Multi-angle rearview camera¹

Has a sixth sense for safety.

The Honda Sensing™ technologies are designed to help make your drive safer and now standard across the Civic lineup (excluding Si and Type R). With intuitive technology and design, we've created a way forward that we can all feel good about. Whether you're driving or sitting in the passenger seat, feel confident in the latest in safety innovation from Honda.

Forward Collision Warning (FCW) system

The FCW system¹ is designed to detect the presence of vehicles in front of you and issue audible, visual and tactile alerts if you're approaching with too much speed. If you fail to respond, CMBS[®] is triggered into operation.

Collision Mitigation Braking System™ (CMBS[®])

To help reduce the likelihood or severity of a frontal impact, CMBS[®] is engineered to apply light brake pressure if you don't respond to FCW system alerts. If it still senses an imminent collision, CMBS[®] is designed to brake forcefully.

Lane Departure Warning (LDW) system

The LDW system¹ is designed to monitor vehicle lane position and issue visual and tactile alerts if your vehicle drifts into another detected lane without signaling.

Lane Keeping Assist System (LKAS)

The LKAS¹ is engineered to gently correct your steering if you begin to leave a detected lane without signaling, applying torque progressively to the steering to help guide you back to the centre of the lane.

Road Departure Mitigation (RDM) system

The RDM system¹ is designed to help steer and even apply the brakes if it detects your vehicle may leave the road.

Adaptive Cruise Control (ACC) with Low-Speed Follow[†]

The ACC system¹ is designed to keep a constant speed and set following interval behind a vehicle detected in front of you, including the ability to start and stop the vehicle with the flow of traffic.

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.
[†] Low-Speed Follow is not applicable on MT trims with Honda Sensing™ safety and driver assist features.

Solid on safety.

At Honda, we strive to provide a high level of standard safety features to help ensure the safety of occupants, other drivers and even pedestrians. This added peace of mind helps our drivers maintain the confidence to enjoy every road to the fullest.

Passive Safety

Advanced Compatibility Engineering™ (ACE™) body structure

The highly innovative, next generation Advanced Compatibility Engineering™ (ACE™) body structure is engineered to help disperse frontal impact energy to enhance occupant protection, while more effectively controlling it in severe collisions to help prevent intrusion into the passenger cabin.

Child safety

The Civic features childproof rear door locks (Sedan and Hatchback only), as well as rear seat Lower Anchors and Tethers for Children (LATCH), which give you a simple and convenient method to install compatible child safety seats without using the vehicle’s seat belt system.

Seat belt safety

The Civic helps prepare you for the unexpected with 3-point height-adjustable (Sedan and Hatchback only) front seat belts with automatic tensioning system and 3-point rear seat belts.

HondaLink™ Assist Automatic Emergency Response System

The available Assist Automatic Emergency Response System^{1,2,3} helps you get the help you need when you need it most. If the airbags deploy, your Display Audio System¹ is engineered to automatically attempt to put you on a call with an operator who will forward your location to first responders if needed. It works with any compatible Bluetooth®-paired phone as long as it has reception, does not require a subscription and gives you added peace of mind while you’re on the road.

Six standard airbags

The cabin of the Civic contains six standard airbags. It features an i-SRS front airbag system as well as side curtain airbags with a rollover sensor designed to deploy them in the event of a rollover. Plus, it has SmartVent™ side airbags, which are designed to deploy safely in a manner that mitigates the risk of injury to out-of-position or smaller occupants.

Pedestrian safety

Innovative pedestrian safety features include an energy-absorbing hood and front fenders and deformable wiper pivots.

Active Safety

Controlled Braking

To assist with safe stopping, the 4-wheel Anti-lock Braking System¹ (ABS) is designed to help you maintain control under hard braking conditions, while Electronic Brake-force Distribution (EBD) helps to optimize braking power based on weight distribution inside the vehicle. In addition, Brake Assist is engineered to help improve braking performance by applying brake pressure when a panic stop is detected.

Hill Start Assist¹

If you take your foot off the brake when stopped on an incline, this feature is engineered to temporarily maintain brake pressure to help prevent your Civic from starting to roll backwards.

Vehicle Stability Assist (VSA®) with Traction Control

Vehicle Stability Assist¹ is designed to sense and help correct oversteer and understeer scenarios to enhance handling and cornering stability, while Traction Control is designed to minimize wheel spin when accelerating on loose or slippery surfaces, helping to inspire greater driver confidence.

Auto high beam¹

To help make night driving more seamless, the available auto high-beam system¹ automatically changes the low-beam headlights to high-beam headlights depending on the surrounding conditions.

1. None of the features we describe are intended to replace the driver’s responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle’s Owner’s Manual.
2. Only compatible with certain devices and operating systems. Operation may be dependent upon GPS satellite signal reception and available cellular data and/or voice connection.
3. Operation requires wireless mobile phone to be paired with the vehicle. Operation is dependent upon cellular data and/or voice connection availability and GPS satellite signal reception.

Make it your Honda.

With an abundance of custom accessories and configurations, make your Civic truly reflect you.

Leave your mark,
inside and out.

1. Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures.

2. None of the features we describe are intended to replace the driver’s responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle’s Owner’s Manual.

3. Only compatible with certain devices and operating systems. Operation may be dependent upon GPS satellite signal reception and available cellular data and/or voice connection.

4. Operation requires wireless mobile phone to be paired with the vehicle. Operation is dependent upon cellular data and/or voice connection availability and GPS satellite signal reception.

5. Map database covers major metropolitan areas in Canada and the 48 contiguous U.S. states.

6. HomeLink® can be programmed with codes of up to three remote-control devices (e.g., garage-door opener, home security system, etc.).

7. Coverage varies by market.

8. Only available in certain areas. Includes a no-charge trial of three months.

9. Estimated fuel consumption based on Government of Canada’s 5-cycle testing method. Your actual fuel consumption will vary based on driving habits and other factors – use for comparison only.

For more information on 5-cycle testing, visit <http://vehicles.nrcan.gc.ca>.

We’re Here. At Honda, assistance and support are always available. The team of trained technicians at your Honda dealership will help keep your vehicle in terrific shape. If you need more information or assistance relating to your warranty, call us at 1-888-9-HONDA-9. For all of the latest Honda information, including product specifications, pricing, photos and more, visit honda.ca. It has everything you need to “design” your Honda and personalize it with items from a list of quality accessories.

We’re Ready to Help. When you purchase a new Honda, you automatically receive Honda Plus Roadside Assistance. This service is available to you, or any authorized driver, 24 hours a day, 7 days a week, anywhere in Canada or the United States (including the lower 48 states, the District of Columbia, Alaska, Hawaii, and Puerto Rico). Coverage is for 3 years over an unlimited distance and includes a 24-hour toll-free Honda Plus Roadside Assistance number, mechanical breakdown towing, emergency roadside service and many other helpful features. Ask your dealer for more information.

Honda Plus Extended Warranty. Experience added protection with Honda Plus coverage that is behind you for the road ahead. With available coverage options of up to 8 years/200,000 km, you can choose the one that best suits your needs. With a plan this wide-ranging, the only thing that’s uncertain is where it will take you.

Honda Financial Services. Whether you buy or lease a Honda, Honda Financial Services can assist you with the process. Ask your dealer which lease or purchase plan best suits your needs.

New Honda Vehicle Warranty. The Honda warranty protection makes Power Train components a minor concern with the Honda 5-year/100,000-km No Nonsense Warranty. In addition to the Honda 5-year/100,000-km No Nonsense Warranty, you and your new Honda are protected by a Honda 3-year/60,000-km Distributor’s Warranty as well as an additional series of warranties for such items as emission controls, body corrosion and more.

Genuine Honda Accessories give you the opportunity to fine-tune your new Honda just how you like it. Whether you want to turn up the style, the versatility or the exclusivity, every accessory is designed and built to adhere to the strictest Honda standards. See your dealer for full details.

Genuine Honda Replacement Parts are made to the same exacting standards as original Honda components and are guaranteed by the Genuine Honda Parts Warranty. Using Genuine Honda Parts will help to maintain the quality, reliability and performance of your vehicle.

Always use seat belts and appropriate child seats. Children 12 and under are safest when properly restrained in a rear seat. Properly secure all items stored in cargo areas. Always read the vehicle owner’s manual for detailed vehicle operation and feature information.

Honda reserves the right to terminate or change any of the services and/or features listed in this brochure at any time, for any reason. Some features require registration. Certain features may transmit to Honda and/or other service providers a vehicle’s location, operating conditions or other information that may be tied to the vehicle identification number (VIN) and can be combined to track a vehicle. For Honda’s data use and Privacy Policies, see www.honda.ca/privacy. Here's to the dreamers.

The Power of Dreams

At Honda, The Power of Dreams drives us to create intelligent products that enhance mobility and increase the joy in people's lives. It is the mindset that guides us to help move people forward and protect the future we all share.

How do we do it? We never stop dreaming. In the 70s, we were the first automaker in the industry to voluntarily adhere to emissions standards. Now, we're advancing robotics and aviation, harnessing solar power and releasing a car that emits only water.

Through it all, our goal never changes: create a safer, smarter world in which people experience the joy of mobility.

The Honda Canada Foundation

The Honda Canada Foundation enables the realization of dreams by supporting people and organizations across the country that focus on four pillars: Family, Education, Environment and Engineering. Since 2005, more than 5.5 million Canadians have benefited from charitable programs funded by the Honda Canada Foundation.

Blue Skies for Our Children

We believe everything we do must exist in harmony with nature. That's where "Blue Skies for Our Children" was born. It's more than a mantra – it's an environmental pledge to the Earth and our future generations. And we're practicing what we preach.

Leading the LEED® certifications

Our sales offices also strive for environmental efficiencies. Honda's LEED® (Leadership in Energy and Environmental Design) Gold Certified Head Office campus in Markham, Ontario, includes green features such as a storm water management system, heat-reflective materials

on the roof and bio swales for natural filtration. The facility uses 89 percent less litres of water per square foot and 38 percent less kilowatt hours of energy annually than the average office facility.

Zero Waste-to-Landfill

We don't waste time. Or anything else for that matter. Our goal is to increase our recycling efforts, reduce overall waste and divert materials from landfill sites. In fact, last year we sent less than one percent of waste to landfills from our office and parts distribution facilities combined.

One Honda. One Tree.

We're pretty obsessed with fresh air. For every lawn and garden or ATV product sold between April 1 and July 31 annually, the Honda Canada Foundation plants one tree. In the last 12 years, we've helped plant more than 160,000 trees in Canada.

Environmental Vehicles & Technology

Blending style, efficiency and a serious amount of thrill, the Accord Hybrid makes environmental responsibility feel almost rebellious. Combining a lithium-ion battery with a 2.0-litre engine, this Hybrid lets you go more and stop less on the way. The Honda Insight exemplifies hybrid efficiency, powered by a 1.5-litre Atkinson Cycle engine, electric motor and lithium-ion battery. And the future looks brighter with Honda advancing Fuel Cell technology that emits zero emissions.

Honda Clarity Plug-in Hybrid

Whoever said an eco-conscience came with compromise was sorely mistaken. This advanced plug-in hybrid vehicle lets you tap into electric power alongside the gas engine to create extra efficiency.
