

2020

Ridgeline

Life can be unpredictable.
Bumps, curves and dead
ends are bound to happen
along the way.
But who wants predictable?
Here's to embracing the
road ahead – wherever
it may take you.

Technology 13	

OVERVIEW

All terrain. All the time.

The 2020 Ridgeline is ready to take on practically anything you or the road can throw at it. The vehicle features a wide, capable bed to tackle virtually any job. Plus, it includes must-have features like Apple CarPlay™^{1,2} / Android Auto™^{1,2} an available Truck-Bed Audio System™ and standard Honda Sensing™ technologies designed to make it more aware of the road. If you like your toys to look as good as they work, then the Ridgeline is the truck for you.

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.
2. Only compatible with certain devices and operating systems. Operation may be dependent upon: 1. GPS satellite signal reception and available cellular data and/or voice connection; or 2. connection to vehicle's built-in Wi-Fi hotspot, if applicable. Associated charges (incl. data plans, roaming charges or other amounts charged by your wireless carrier) may apply.

Ridgeline Touring in Modern Steel Metallic.

EXTERIOR

Form, meet function.

Just because the Ridgeline has a pretty face, doesn't mean it's a stranger to hard work. The UV-stabilized and scratch-resistant bed is engineered to keep your Ridgeline looking fresh every day. It works around the clock to help protect your ride from any ticks, dings or scrapes. No matter where you are, hold down the fort with eight heavy-duty tie-down cleats to help keep everything in its place. When you need to be seen, available projector-beam LED headlights help to make sure your presence is known. On hot days, you'll love opening the one-touch power moonroof with tilt feature. It'll get fresh air circulating and let you soak up some sun. Who would've thought a truck could look this good? Well, we did.

Key Features: Power-sliding rear cabin window with defroster, fog lights, one-touch power moonroof with tilt feature, available projector-beam LED headlights with auto-on/off

SEATING/INTERIOR AMENITIES

Work the room.

If you thought the bed was roomy, wait until you're inside the cabin. The Ridgeline sports ample interior space and a versatile cabin. For anything coming along for the ride, the 60/40 lift-up rear seat bends over backwards to help you store the stuff you don't want hauled in the bed. On those cold days to the ski hill or on the job, you and your lucky passengers will forget how you lived without heated front seats or available heated rear seats. For those fickle passengers in the front and back, the tri-zone automatic climate control helps settle any arguments on the perfect temperature by letting them choose their own. The best part of your A to B won't be arriving. It'll be getting there.

BLACK EDITION

Black goes with everything.

No matter where you're going, you'll always look like you're dressed for a night out. The Black Edition Ridgeline has a classic appeal suited for virtually every occasion. Outside, the black chrome grille bar, black door handles and 18" black aluminum-alloy wheels complement its uniformed yet aggressive look. Inside, Black Edition seat stitching and floor mats add sophistication to the interior. If you love showing off, so does the Ridgeline. Red ambient lighting in the foot well, door pocket and cup holders give it some flare and personality. The Black Edition Ridgeline isn't just tough. Some would even call it fancy.

Key Features: 18" black aluminum-alloy wheels, ambient lighting (footwell, door pocket, cupholders) - red, black bumper skid garnish, Black Edition grille emblem

Ridgeline Black Edition in Crystal Black Pearl.

Ridgeline Touring in Deep Scarlet Pearl.

CARGO

Makes every task enjoyable.

The Ridgeline has your back, quite literally. It's there to hold on to practically anything you're packing in the back while you hold on to the wheel up front. After you've enjoyed the comforts of the cabin, you'll feel even more comfortable knowing that the lockable In-Bed Trunk™ helps to protect anything you store in it. The bed is long and wide enough (5'4" x 5') for virtually all your cargo, with 4'2" of clearance between the wheel wells. Whether it's a kayak, a sheet of drywall or strapping in the ATV, the dual-action tailgate opens up to make storing and securing your gear a snap! Like a good friend, the Ridgeline is always ready to help you move.

Key Features: 4'2" flat bed space, dual-action tailgate, lockable In-Bed Trunk™ Truck-Bed Audio System™

1. Please ensure that all in-bed items are properly stored, secured and carried in compliance with local laws.

PERFORMANCE & EFFICIENCY

Up your truck game.

Whether you're tackling endless DIY projects, hauling the family to the cottage or powering through your 9 to 5, the Ridgeline is right there by your side. The 3.5-litre, Direct Injection i-VTEC® V6 engine with 280 hp¹ and 262 lb.-ft. of torque¹ gives you enough power to keep you and your passengers in the back of your seats. Teamed up with the Intelligent Variable Torque Management (i-VTM4™) AWD system, the Ridgeline is designed to deliver the performance you want and responsiveness you need. If you're taking the road less travelled or the weather's uncooperative, the Intelligent Traction Management System lets you choose between Normal, Snow, Mud or Sand modes to help keep you grounded. The Ridgeline is only limited by what you can throw at it.

Key Feature: Torque-vectoring AWD

1. Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures.

TECHNOLOGY

Touch and go.

Whether you're hitting the open road or city streets, the Ridgeline can be equipped with the gadgets you need. It's business in the front and party in the back with the available 540-watt Truck-Bed Audio System™. Plus, the 8" Display Audio System¹ with Apple CarPlay™^{1,2}/Android Auto™^{1,2} lets you pick your favourite jams. It sits front and centre, with available navigation features to explore by pinching, swiping, or tapping.

The Ridgeline has power under the hood and power in the bed. The available 150-watt/400-watt AC in-bed power inverter lets you plug in tools, floodlights, and more. Additionally, the available Honda LaneWatch™ blind spot display¹ reveals what's in your blind spot by showing you 4x more than the side mirror alone. Moreover, the 7" colour TFT centre meter display lets you keep track of your vehicle's speed and important vehicle information like engine oil life and trip range. Lastly, the world is at your beck and call with the available Honda Satellite-Linked Navigation System™^{1,3}. Its bilingual Voice Recognition can guide you with 3D landmark displays, highway signs, speed limit display, estimated arrival time, and lane guidance.

1. Available Truck-Bed Audio System™
2. 8" Display Audio System³ with Apple CarPlay™^{1,2}/Android Auto™^{1,2}
3. Available 150W/400W truck-bed power outlet
4. Available Honda LaneWatch™ blind spot display¹
5. 7" colour TFT centre meter display
6. Available Honda Satellite-Linked Navigation System™^{1,3}

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.

2. Only compatible with certain devices and operating systems. Operation may be dependent upon: 1. GPS satellite signal reception and available cellular data and/or voice connection; or 2. connection to vehicle's built-in Wi-Fi hotspot, if applicable. Associated charges (incl. data plans, roaming charges or other amounts charged by your wireless carrier) may apply.

3. Map database covers major metropolitan areas in Canada and 48 contiguous U.S. states

Senses the unknown, then makes it known.

Honda Sensing™ technologies are designed to help make your drive safer. With intuitive technology and design, we've created a way forward that we can all feel good about. Whether you're driving or sitting in the passenger seat, feel confident in the latest in safety and innovation from Honda.

BRAKE

Forward Collision Warning (FCW) system

The FCW system¹ is designed to detect the presence of vehicles in front of you and issue audible, visual and tactile alerts if you're approaching with too much speed. If you fail to respond, CMBS[®] is triggered into operation.

Collision Mitigation Braking System™ (CMBS[®])

To help reduce the likelihood or severity of a frontal impact, CMBS^{®1} is engineered to apply light brake pressure if you don't respond to FCW system alerts. If it still senses an imminent collision, CMBS[®] is designed to brake forcefully.

Lane Departure Warning (LDW) system

The LDW system¹ is designed to monitor vehicle lane position and issue visual and tactile alerts if your vehicle drifts into another detected lane without signaling.

Lane Keeping Assist System (LKAS)

The LKAS¹ is engineered to gently correct your steering if you begin to leave a detected lane without signaling, applying torque progressively to the steering to help guide you back to the centre of the lane.

Road Departure Mitigation (RDM) system

The RDM system¹ is designed to help steer and even apply the brakes if it detects that your vehicle may leave the road.

Adaptive Cruise Control (ACC)

The ACC system¹ is designed to keep a constant speed and set following interval behind a vehicle detected in front of you.

¹ None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.

Accessorized Ridgeline Touring in Lunar Silver Metallic.

Solid on safety.

At Honda, we strive to provide a high level of standard safety features to help ensure the safety of occupants, other drivers and even pedestrians. This added peace of mind helps our drivers maintain the confidence to enjoy every road to the fullest.

PASSIVE SAFETY

Advanced Compatibility Engineering™ (ACE™) body structure

The highly innovative, next generation Advanced Compatibility Engineering™ (ACE™) body structure is engineered to help disperse frontal impact energy to enhance occupant protection, while more effectively controlling it in severe collisions to help prevent intrusion into the passenger cabin.

Solid frame structure

Like all Honda trucks, the Ridgeline is built with a rigid uni-body frame for added strength, stability and vehicle handling.

Child safety

The Ridgeline features childproof rear door locks as well as rear seat Lower Anchors and Tethers for Children (LATCH), which give you a simple and convenient method to install compatible child safety seats without using the vehicle's seat belt system.

Seat belt safety

The Ridgeline helps prepare you for the unexpected with 3-point height-adjustable front seat belts with an automatic tensioning system, and 3-point rear seat belts.

HondaLink™ Assist Automatic Emergency Response System

The HondaLink Assist Automatic Emergency Response System^{1,3,4} helps you get the help you need when you need it most. If the airbags deploy, your Display Audio System¹ is engineered to automatically attempt to put you on a call with an operator who will forward your location to first responders if needed. It works with any compatible Bluetooth®-paired phone as long as it has reception, does not require a subscription and gives you peace of mind while you're on the road.

Six standard airbags

The cabin of the Ridgeline contains six standard airbags. It features i-SRS front airbags, as well as side curtain airbags with rollover sensors, designed to deploy if a rollover is detected. Plus, it has SmartVent™ side airbags, which are designed to deploy safely in a manner that mitigates the risk of injury to out-of-position or smaller occupants.

Pedestrian safety

Innovative pedestrian safety features include an energy-absorbing hood and front fenders and breakaway wiper pivots.

ACTIVE SAFETY

Controlled Braking

To assist with safe stopping, the 4-wheel Anti-lock Braking System¹ (ABS) is designed to help you maintain control under hard braking conditions, while Electronic Brake-force Distribution (EBD) helps to optimize braking power based on weight distribution inside the vehicle. In addition, Brake Assist is engineered to help improve braking performance by applying brake pressure when a panic stop is detected.

Vehicle Stability Assist (VSA®) with Traction Control

Vehicle Stability Assist¹ with Traction Control is designed to sense and help correct oversteer and understeer scenarios to enhance handling and cornering stability, while Traction Control is designed to minimize wheel spin when accelerating on loose or slippery surfaces, helping to inspire greater driver confidence.

Hill Start Assist¹

If you take your foot off the brake when stopped on an incline, Hill Start Assist is engineered to temporarily maintain brake pressure to help prevent your Ridgeline from starting to roll backwards.

Auto high beam¹

The available auto high beam feature automatically changes the low beam headlights to high beam headlights in certain circumstances to help improve your vision.

Tire Pressure Monitor System (TPMS)

To promote enhanced safety and fuel efficiency, the Tire Pressure Monitoring System² continually checks the air pressure in each tire. If pressure drops in any tire, the driver receives a dashboard alert.

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.

2. For optimal tire wear and performance, the pressure should be checked regularly with a tire gauge. Do not rely solely on the monitor system.

3. Only compatible with certain devices and operating systems. Operation may be dependent upon: 1. GPS satellite signal reception and available cellular data and/or voice connection; or 2. connection to vehicle's built-in Wi-Fi hotspot, if applicable. Associated charges (incl. data plans, roaming charges or other amounts charged by your wireless carrier) may apply.

4. Operation requires wireless mobile phone to be paired with the vehicle. Operation is dependent upon cellular data and/or voice connection availability and GPS satellite signal reception.

KEY FEATURES

- 3.5-litre, 24-valve, Direct Injection, SOHC, i-VTEC® V6 engine
- 18" aluminum-alloy wheels (Shark Grey)
- 2,267 kg (5,000 lbs) towing capacity¹
- 225-watt AM/FM/CD audio system with MP3/Windows Media® Audio playback capability and 7 speakers including subwoofer
- 4-wheel Anti-lock Braking System² (ABS) with Brake Assist and Electronic Brake-force Distribution (EBD)
- 9-speed automatic transmission with Grade Logic Control
- 60/40 lift-up rear seat with underseat storage
- Apple CarPlay™^{2,3} / Android Auto™^{2,3}
- Black bumper skid garnish
- Body-coloured door handles
- Body-coloured heated power door mirrors with painted black base
- Display Audio System² with HondaLink™^{2,3}
- Driver's seat with 10-way power adjustment including power lumbar support
- Dual-action tailgate
- Fog lights
- Front wiper de-icer
- HandsFreeLink™-bilingual Bluetooth® wireless mobile phone interface^{2,3} with steering-wheel mounted controls
- Heated front seats
- Hill Start Assist²
- HomeLink® remote system⁶
- Honda LaneWatch™ blind spot display²
- HondaLink™ Assist Automatic Emergency Response System^{2,3,4}
- Illuminated driver's and front passenger's vanity mirrors
- In-Bed Trunk™
- Intelligent Traction Management System
- Intelligent Variable Torque Management (i-VTM4™) AWD system
- LED daytime running lights
- Mirror-integrated LED turn signal indicators
- Multi-angle rearview camera² with dynamic guidelines
- One-touch power moonroof with tilt feature
- Power sliding rear cabin window with defrost
- Power tailgate lock
- Proximity key entry system with pushbutton start
- Remote engine starter
- Tire Pressure Monitoring System⁵ (TPMS) with tire fill assist
- Trailer Stability Assist
- Tri-zone automatic climate control with air-filtration system
- USB device connector² (2)
- Variable Cylinder Management® (VCM®)
- Walk-away door lock

EX-L

ADDS TO OR REPLACES SPORT FEATURES

- Acoustic windshield
- Adjustable driver's seat armrest
- Auto-dimming rearview mirror
- Body-coloured heated power door mirrors
- Front and rear parking sensors
- Heated leather-wrapped steering wheel
- Heated rear seats (outboard positions only)
- Passenger's seat with 4-way power adjustment
- Perforated leather-trimmed seating surfaces
- SiriusXM™⁷

TOURING

We're Here. At Honda, assistance and support are always available.

The team of trained technicians at your Honda dealership will help keep your vehicle in terrific shape. If you need more information or assistance relating to your warranty, call us at 1-888-9-HONDA-9.

For all of the latest Honda information, including product specifications, pricing, photos and more, visit honda.ca. It has everything you need to “design” your Honda and personalize it with items from a list of quality accessories.

We're Ready to Help. When you purchase a new Honda, you automatically receive Honda Plus Roadside Assistance. This service is available to you, or any authorized driver, 24 hours a day, 7 days a week, anywhere in Canada or the United States (including the lower 48 states, the District of Columbia, Alaska, Hawaii, and Puerto Rico). Coverage is for 3 years over an unlimited distance and includes a 24-hour toll-free Honda Plus Roadside Assistance number, mechanical breakdown towing, emergency roadside service and many other helpful features. Ask your dealer for more information.

Honda Plus Extended Warranty. Experience added protection with Honda Plus coverage that is behind you for the road ahead. With available coverage options of up to 8 years/200,000 km, you can choose the one that best suits your needs. With a plan this wide-ranging, the only thing that's uncertain is where it will take you.

Always use seat belts and appropriate child seats. Children 12 and under are safest when properly restrained in a rear seat. Properly secure all items stored in cargo areas. Always read the vehicle owner's manual for detailed vehicle operation and feature information.

Honda reserves the right to terminate or change any of the services and/or features listed in this brochure at any time, for any reason. Some features require registration. Certain features may transmit to Honda and/or other service providers a vehicle's location, operating conditions or other information that may be tied to the vehicle identification number (VIN) and can be combined to track a vehicle. For Honda's data use and Privacy Policies, see www.honda.ca/privacy. Specifications, features, illustrations and equipment shown in this brochure are based upon the latest available information at the time of publication. Although descriptions are believed to be correct, accuracy cannot be guaranteed. Honda reserves the right to make changes at any time, without notice or obligation, in colours, specifications, accessories, materials, models and trim availability. Some vehicles may be shown with optional equipment. Some vehicles shown may be U.S. models. Canadian specifications may vary. 1. Accessory towing package required. Packages are available at an additional cost as a dealer-installed item. See your Owner's Manual for proper towing operation.
2. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.
3. Only compatible with certain devices and operating systems. Operation may be dependent upon: 1. GPS satellite signal reception and available cellular data and/or voice connection; or 2. connection to vehicle's built-in Wi-Fi hotspot, if applicable. Associated charges (incl. data plans, roaming charges or other amounts charged by your wireless carrier) may apply.
4. Operation requires wireless mobile phone to be paired with the vehicle. Operation is dependent upon cellular data and/or voice connection availability and GPS satellite signal reception.
5. For optimal tire wear and performance, the pressure should be checked regularly with a tire gauge. Do not rely solely on the monitor system.
6. HomeLink® can be programmed with codes of up to three remote-control devices (e.g., garage-door opener, home security system, etc.).
7. Only available in certain areas. Includes a no-charge trial of three months.
8. Map database covers major metropolitan areas in Canada and the 48 contiguous U.S. states.
9. Coverage varies by market.

Here's to the dreamers.

The Power of Dreams

At Honda, The Power of Dreams drives us to create intelligent products that enhance mobility and increase the joy in people's lives. It is the mindset that guides us to help move people forward and protect the future we all share.

How do we do it? We never stop dreaming. In the 70s, we were the first automaker in the industry to voluntarily adhere to emissions standards. Now, we're advancing robotics and aviation, harnessing solar power and releasing a car that emits only water.

Through it all, our goal never changes: create a safer, smarter world in which people experience the joy of mobility.

The Honda Canada Foundation

The Honda Canada Foundation enables the realization of dreams by supporting people and organizations across the country that focus on four pillars: Family, Education, Environment and Engineering. Since 2005, more than 5.5 million Canadians have benefited from charitable programs funded by the Honda Canada Foundation.

Blue Skies for Our Children

We believe everything we do must exist in harmony with nature. That's where "Blue Skies for Our Children" was born. It's more than a mantra – it's an environmental pledge to the Earth and our future generations. And we're practicing what we preach.

Leading the LEED® certifications

Our sales offices also strive for environmental efficiencies. Honda's LEED® (Leadership in Energy and Environmental Design) Gold Certified Head Office campus in Markham, Ontario, includes green features such as a storm water management system, heat-reflective materials on the roof and bio swales for natural filtration. The facility uses 89 percent less litres of water per square foot and 38 percent less kilowatt hours of energy annually than the average office facility.

Zero Waste-to-Landfill

We don't waste time. Or anything else for that matter. Our goal is to increase our recycling efforts, reduce overall waste and divert materials from landfill sites. In fact, last year we sent less than one percent of waste to landfills from our office and parts distribution facilities combined.

One Honda. One Tree.

We're pretty obsessed with fresh air. For every lawn and garden or ATV product sold between April 1 and July 31 annually, the Honda Canada Foundation plants one tree. In the last 12 years, we've helped plant more than 160,000 trees in Canada.

Environmental Vehicles & Technology

Blending style, efficiency and a serious amount of thrill, the Accord Hybrid makes environmental responsibility feel almost rebellious. Combining a lithium-ion battery with a 2.0-litre engine, this Hybrid lets you go more and stop less on the way. The Honda Insight exemplifies hybrid efficiency, powered by a 1.5-litre Atkinson Cycle engine, electric motor and lithium-ion battery. And the future looks brighter with Honda advancing Fuel Cell technology that emits zero emissions.

Honda Clarity Plug-in Hybrid

Whoever said an eco-conscience came with compromise was sorely mistaken. This advanced plug-in hybrid vehicle lets you tap into electric power alongside the gas engine to create extra efficiency.
