A road for every Honda.

From quiet city streets at the crack of dawn to the hustle and bustle of the urban jungle after dark, the Honda Civic is ready to escort you there, wherever “there” happens to be. Canada’s metropolitan landscape is an exciting place to explore at all hours. And since the 2014 Civic was Canada’s best-selling car 16 years in a row, we’re always ready to help you do just that.
The 2015 Civic. Making a long story even longer.

For over 40 years, the Civic has brought us together, taken us on adventures and helped us create memories we’ll never forget. And since the 2014 Civic was Canada’s best-selling car 16 years in a row, the stories are never-ending.

The Civic’s bold exterior styling on the outside is matched only by the premium technology on the inside. Fans of safety and convenience will love the available Honda LaneWatch™ blind spot display, the available 7” Display Audio System with HondaLink™ Next Generation and the available proximity key entry system with pushbutton start. When you add the seamless efficiency of our available continuously variable transmission (CVT) and the available multi-angle rearview camera with dynamic guidelines, it’s easy to see why the Civic should be a part of your next chapter.

1. None of the features we describe are intended to replace the driver’s responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technology limitations. For additional feature information, contact an authorized dealer or refer to the vehicle Owner’s Manual.

2. Only compatible with certain devices and operating systems. Carrier data and service plan charges may apply, including roaming charges and/or other amounts charged by your wireless carrier.
Two doors. Unlimited fun.

The 2015 Civic Coupe is utterly striking, in the best way possible. True to its energetic, fun-to-drive character, the Coupe’s sporty exterior fully captures the spirit of the lively engine within. Equipped with a standard rearview camera with guidelines and available features such as fog lights, a 7” Display Audio System featuring HondaLink™ Next Generation and a power moonroof with tilt feature, the Coupe is sure to get noticed no matter where you take it.

1. None of the features we describe are intended to replace the driver’s responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. 2. Only compatible with certain devices and operating systems. Cellular data and/or voice charges may apply, including roaming charges and/or other amounts charged by your wireless carrier.
Classic and cutting edge, all at the same time.

Style is an important part of the driving experience, and the Civic Sedan has it in spades. Its finely sculpted profile is as stunning as ever, and it maintains the sleek and clean lines that make it a standout in four-door style. But it’s not just all about looks. For those days when you want to feel the wind in your hair, the Civic Sedan has an available power moonroof with tilt feature. The available multi-angle rearview camera will help to ensure that what’s behind you will stay front of mind. Other available features like the Honda LaneWatch™ blind spot display and the 7” Display Audio System with HondaLink™ Next Generation provide a touch of cutting-edge tech, and available fog lights are designed to offer better visibility in tough weather and add an extra splash of style to your front bumper. Simply put, the Sedan is a premium experience with style to spare.
Comes with an ingrained aversion to gas stations.

The 2015 Civic Hybrid builds on Honda’s legendary fuel-efficient designs, helping you to cover more distance between visits to the pumps. At the heart of the Hybrid is the integrated Motor Assist (IMA®) system, which controls the balance between the 1.5-litre, i-VTEC® 4-cylinder gasoline engine and the electric motor. The fuel efficiency is further promoted by the continuously variable transmission (CVT), which is designed to provide enhanced efficiency and provide a smooth ride. The Hybrid retains the sleek exterior lines of the Civic Sedan while adding a flair all its own, highlighted by the sporty lightweight aluminum-alloy wheels and rear deck lid spoiler. Plus, with LED daytime running lights and LED taillights adding to its sophisticated look, the Hybrid is a bona fide head-turner. The Civic Hybrid has benefits that will please drivers while keeping the environment in mind.

KEY FEATURES

Integrated Motor Assist (IMA®) system (fuel economy rating as low as 5.2 l/100 km combined)1

Display Audio System™ with Honda Satellite-Linked Navigation System™2,3 with bilingual Voice Recognition

Honda LaneWatch™ blind spot display2

Proximity key entry system with pushbutton start

Multi-angle rearview camera2 with dynamic guidelines

1 Estimated fuel economy based on Government of Canada’s new 5-cycle testing method. Your actual fuel consumption will vary based on driving habits and other factors — use for comparison only. For more information on 5-cycle testing, visit http://vehicles.nrcan.gc.ca

2 None of the features we describe are intended to replace the driver’s responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and instructions, please visit www.honda.ca/disclaimers or refer to the vehicle’s Owner’s Manual.

3 Map database covers major metropolitan areas in Canada and 48 contiguous U.S. states.
Be moved before you even start it up.

The Civic proves it truly is what’s inside that counts. Premium soft touch materials are used throughout, and the available leather-trimmed seating surfaces are a luxurious touch. Available features like the leather-wrapped steering wheel with mounted controls, the 60/40 split fold-down rear seatback and heated front seats (both standard on the Coupe) give the interior a style that strikes the perfect blend of elegance and convenience. Find your groove in the driver’s seat with available 8-way power adjustment (6-way manual on the Coupe), and keep things comfortable using the available automatic climate control with air-filtration system. With additional available features like sliding armrest and chrome accents, it’s clear why the 2015 Civic is not only a sensation to drive, but a sensation to see and feel as well.
Pit crew not included.

It’s your turn to benefit from Honda’s decades of race experience. The Civic Si’s 2.4-litre, 4-cylinder DOHC i-VTEC® engine is perfect for drivers who appreciate the not-so-little things. Complemented by a sport-tuned exhaust, the Si performs at a pulse-accelerating 205 horsepower1 with 174 lb.-ft of torque1. The finely engineered 6-speed manual transmission helps to make every shift feel smooth and fluid, and the helical limited slip differential is designed to make wet conditions and hard corners a breeze. Finally, both the independent strut front suspension and independent multi-link rear suspension give you a ride that race car drivers would appreciate on the track, let alone off it.

1 Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures.
Beauty and beast.

The Si Coupe is pure sport, through and through. With bold, athletic styling, it’s sure to get your heart revving. It also features sporty styling cues like the rear wing spoiler, the exhaust finisher and the 18" aluminum-alloy wheels on both the Coupe and Sedan. For those who want a ride that’s as sporty as they are.

KEY FEATURES

Display Audio System1 with HondaLink™
Next Generation
Honda LaneWatch™ blind spot display1
Proximity key entry system and pushbutton start
Multi-angle rearview camera1
with dynamic guidelines

1. None of the features we describe are intended to replace the driver’s responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. 2. Only compatible with certain devices and operating systems. Cellular data and/or voice charges may apply, including roaming charges and/or other amounts charged by your wireless carrier.
Tomorrow’s technology, today.

The 2015 Civic provides premium technology at your fingertips. From the moment you step inside to the moment you arrive in your driveway, its cutting-edge features will change your entire driving experience. High-tech has a new home.

7” Display Audio System1 with HondaLink™ Next Generation

The available state-of-the-art Display Audio System is technology worthy of a keynote address. Intuitive and easy to use, it features a 7” touch-screen and works just like a tablet. This means you can swipe, pinch and tap to navigate through the audio system, display settings, advanced features and the Next Generation of HondaLink. It’s innovation you can touch.

Honda LaneWatch™ blind spot display

Exclusive to Honda, this available feature uses a camera on the passenger’s side mirror designed to greatly reduce your blind spot on that side. Signal right or push the button on the end of the indicator lever and a live video comes up on your Display Audio screen, revealing nearly four times more area than the mirror alone.

Proximity key entry system and pushbutton start

The Civic comes with an available proximity key entry system that lets you unlock your door without taking your keys out of your pocket or purse, and makes starting your engine as simple as pushing a button.

Honda Satellite-Linked Navigation System™

With pinch-to-zoom gestures and over 7 million points of interest, the available Honda Satellite-Linked Navigation System with bilingual Voice Recognition is the best co-pilot a driver could ever ask for.

Proximity key entry system and pushbutton start

The Civic comes with an available proximity key entry system that lets you unlock your door without taking your keys out of your pocket or purse, and makes starting your engine as simple as pushing a button.

Honda Satellite-Linked Navigation System™

With pinch-to-zoom gestures and over 7 million points of interest, the available Honda Satellite-Linked Navigation System with bilingual Voice Recognition is the best co-pilot a driver could ever ask for.

Multi-angle rearview camera

With available dynamic guidelines helps to make backing up a breeze with three distinct angles: wide, normal and top-down.

Intelligent Multi-Information Display

The intelligent Multi-Information Display not only keeps you connected to the Civic’s text message functionality, it also houses important vehicle information such as fuel efficiency and trip range.

1 None of the features we describe are intended to replace the driver’s responsibility to exercise due care while driving. 3 Map database covers major intercity roads in Canada and all contiguous U.S. states.
Give a stellar performance review daily.

We’ve outfitted the Civic with features that are engineered to provide remarkable performance and efficiency. The 1.8-litre, 16-valve, 4-cylinder i-VTEC® engine in both the Civic Coupe and Sedan is lively and responsive, ensuring fun-to-drive performance across the board. The available continuously variable transmission (CVT) is designed to optimize passing power and acceleration from a stop, all while simulating the feel of a conventional automatic transmission. The independent strut front and independent multi-link rear suspensions allow sharper handling, while Motion-Adaptive Electric Power-Assisted Rack-and-Pinion Steering (EPS) brings lightning-fast responsiveness. Push the ECON mode button (on all trims except Si) to activate a system that is designed to improve fuel efficiency by automatically adjusting the Civic’s engine and other auxiliary systems. And let the innovative Eco Assist™ system (on all trims except Si) coach you to more economical driving habits.
Solid on safety.

At Honda, we are committed to providing one of the highest levels of standard safety features to help ensure the safety of occupants, other drivers and even pedestrians. With this peace of mind, our drivers have the confidence to enjoy every road to the fullest.

ACTIVE SAFETY

Controlled braking
To assist with safe stopping, the 4-wheel Anti-lock Braking System (ABS) is designed to help you maintain control under hard braking conditions, while Electronic Brake-force Distribution (EBD) helps to optimize braking power based on weight distribution inside the vehicle. Further, Brake Assist is engineered to help improve braking performance by applying full brake pressure when a panic stop is detected.

Vehicle Stability Assist (VSA®) with Traction Control
Vehicle Stability Assist with Traction Control is designed to sense and help correct oversteer and understeer scenarios to enhance handling and cornering stability, while Traction Control is designed to minimize wheel spin when accelerating on loose or slippery surfaces, helping to inspire greater driver confidence.

Hill Start Assist
When you take your foot off the brake, this feature is engineered to maintain brake pressure to help prevent your Civic from rolling backwards when stopped on an incline.

PASSIVE SAFETY

Next Generation ACE™ body structure
The highly innovative Next Generation ACE™ body structure is engineered to help disperse frontal impact energy to enhance occupant protection, while more effectively controlling it in severe collisions, to help prevent intrusion into the passenger cabin.

Six standard airbags
The cabin of the Civic is lined with six standard airbags. It features dual-stage, multiple-threshold front airbags (SRS) as well as side curtain airbags with rollover sensors, which are designed to deploy the side curtain airbags in the event of a rollover. Plus, it has Smartvent™ side airbags, which are designed to deploy safely in a manner that mitigates the risk of injury to out-of-position or smaller occupants.

Seat belt safety
The Civic helps prepare you for the unexpected with 3-point front seat belts (height-adjustable on Sedan) with automatic tensioning system and 3-point rear seat belts.

Child safety
The Civic features childproof rear door locks, as well as two rear seat Lower Anchors and Tethers for Children (LATCH), which helps provide secure child-seat restraint.

Pedestrian safety
Innovative pedestrian safety features include energy-absorbing hood and front fenders, and deformable wiper pivots.

HondaLink™ Assist Automatic Emergency Response System
The available HondaLink Assist Automatic Emergency Response System helps you get the help you need when you need it most. If the airbags deploy, your Display Audio System is engineered to automatically attempt to put you on a call with an operator who will forward your location to first responders if needed. It works with any compatible Bluetooth®-paired phone as long as it has reception, does not require a subscription and gives you peace of mind while you’re on the road.

1. None of the features we describe are intended to replace the driver’s responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, see statute and instructions, please visit www.honda.ca/disclaimers or refer to the vehicle’s Owner’s Manual.
2. Only compatible with certain devices and operating systems. Cellular data and/or voice charges may apply, including roaming charges and/or other amounts charged by your wireless carrier.
3. Operation requires wireless mobile phone to be paired with the vehicle. Operation is dependent upon cellular data and/or voice connection availability and GPS satellite signal reception.

The Power of Dreams, in all their forms.

At Honda, we’re committed to being a leader in innovative thinking. It’s part of everything we do, from the design of our vehicles to the way we work. We have a proud tradition of turning ideas into products and initiatives that help move and improve people’s lives in every conceivable way. Today, our innovation manifests itself in many forms: our revolutionary Earth Dreams™ technology, the race-inspired performance of our motorcycles and automobiles, the mobility-assisting robot ASIMO, the high-flying HondaJet and the first full line of fuel-efficient, low-emission, 4-stroke outboard motors. We continually strive to do things others think can’t be done, because true innovation comes from daring to dream.

Beyond dreaming up new products, Honda believes we have a responsibility to do everything we can to help preserve our planet. This belief is why we make every effort to help ensure preservation of the environment in all of our company’s activities. It’s why our head office in Markham, Ontario was designed and built to be LEED® (Leadership in Energy and Environmental Design) Gold Certified. It’s why our Alliston, Ontario plant is ISO 14001 certified. And it’s why Honda, along with our associates and families, has helped plant more than 94,000 trees in Canada over the last 7 years.

As we move forward, we will continue to honour our responsibility and tradition of turning innovative ideas into products that help make our world a better place. That’s what we do. That’s The Power Of Dreams.

- City (L/100 KM): 8.6
- Highway (L/100 KM): 6.6
- Combined (L/100 KM): 7.7

1. Horsepower and torque calculations reflect SAE net. Rev. 08/04, SAE J1349 procedures.
2. None of the features we describe are intended to replace the driver’s responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe to do so, and legal to do so. Some features have technological limitations and limitations. For additional feature information, limitations and restrictions, please visit Honda.com/disclaimer or refer to the vehicle’s Owner’s Manual.
3. Only compatible with certain vehicles and operating systems. Cellular data and/or voice charges may apply, including roaming charges and/or other amounts charged by your wireless carrier.
4. Operation requires wireless mobile phone to be paired with the vehicle. Operations depend upon system data and/or voice communications availability and 911 call/Signal reception availability.
6. Only available in certain areas. Includes a no-charge trial of three months.
7. Estimated fuel economy based on Government of Canada new 6-cycle testing method. Your actual fuel consumption will vary based on driving habits and other factors — see user guide for more information on 6-cycle testing. See http://www.honda.ca.ca.
4. Operation requires wireless mobile phone to be paired with the vehicle. Operation is dependent upon cellular data and/or voice connection availability and GPS satellite signal reception.

2. None of the features we describe are intended to replace the driver’s responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers or refer to the vehicle’s Owner’s Manual.
